PRODUCT RANGE

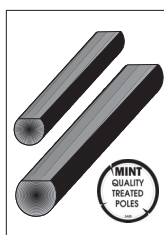

①

ROUND POLES

UNTREATED, TANALITH AND CREOSOTE

Round poles are available in lengths from 0,9m up to 13m and diameters from 50mm up to 200mm. Longer lengths and larger diameters available on order.
APPLICATION UNTREATED : Temporary structures, propping, shoring and scaffolding.
APPLICATION TREATED : Tanalith and Creosote treated poles are generally used in thatch construction, car ports, pergola's, fencing uprights, shed construction, vineyard and fruit orchard supports as well as playground equipment and other industrial uses.

CUT 1 SIDE POLES

UNTREATED, TANALITH AND CREOSOTE

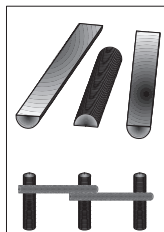

Cut 1 side poles are available in lengths from 1,8m up to 6,6m and diameters from 75mm up to 200mm. Longer lengths and larger diameters available on order.
APPLICATION TREATED : Generally used as exposed beams in roofing and other purposes where one flat surface is required (eg. mezzanine floor).

BEARERS

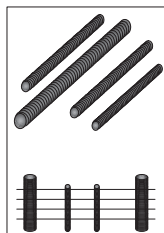

UNTREATED, TANALITH AND CREOSOTE

Bearers are available in lengths from 0,9m up to 7,8m and thicknesses (rise between 2 flat sides) of 75mm up to 200mm.
APPLICATION UNTREATED : For supporting decking plates in the casting of concrete slabs, as walers to support wall framework, as supports when laying pipes, creating walls of batch plants and as support on uneven ground.
APPLICATION TREATED : Generally used as uprights for panel fencing and purlins for IBR sheeting.

SPLITPOLES (half round poles) UNTREATED, TANALITH AND CREOSOTE

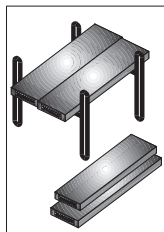

Splitpoles are available in lengths from 1,2m up to 6,0m and diameters from 75mm up to 200mm.
APPLICATION UNTREATED : Generally used for bracing in concrete work as well as temporary fencing.
APPLICATION TREATED : Used as crossmembers in ranch style fencing.

DROPPERS

UNTREATED, TANALITH AND CREOSOTE

Droppers are available in lengths from 0,9m up to 2,4m and diameters between 25mm up to 50mm.
APPLICATION UNTREATED : For markers in surveying applications as well as temporary support of irrigation pipes (eg. restoration of disused mine dump vegetation).
APPLICATION TREATED : Generally used as intermediate strainers in agricultural fencing (ie to keep wire strands apart).

GUMPLANKS

UNTREATED

Gumplanks are available in lengths of 3,0m, 3,6m, 4,2m and 4,8m or divisibles thereof and dimensions of 50x228mm. (38mm and 76mm thicknesses as well as other widths and thicknesses are available on order).
APPLICATION UNTREATED : Generally used for low scaffold, shoring, and mining purposes.
APPLICATION TREATED : Gumplanks are generally not suitable for treatment due to lack of sapwood thereby restricting penetration of treatment chemicals.
