

Taking care of logistics, while you take care of business

RESPONSIBLE LEADERSHIP

Stobel was formed by Martin Oliver and Ken Beckwith in 1988 and offers services such as warehousing, distribution, clearing and forwarding. Leaders in the management of hazardous and dangerous goods, the executive and senior management team also boasts extensive experience and expertise in the chemical industry.

The company is fully Hazchem compliant with legislation regarding the handling of the transportation of hazardous goods and is also a member of Responsible Care, an international organisation of companies committed to conducting business in an ethical and socially responsible manner.

OPERATIONAL SAFETY

Being specialists in our field and having well trained staff, we are able to deal with any unforeseen circumstances. When it comes to operational safety, we don't take chances.

FLEXIBILITY & OPERATING EFFICIENCY

Stobel's 20 years of knowledge together with a hands-on approach from the management team creates the flexibility to offer solutions to our clients at any time. Importantly, we manage our operating costs effectively and pass this benefit onto our clients.

SERVICES

1. Warehousing

We are staffed by an experienced team, providing a clean and safe environment with due regard to Hazchem legislation and Responsible Care, when required.

Goods are received and appropriately stored in a safe, uncontaminated environment consisting of the following services:

- Warehousing with full sprinkler systems maintained annually
- Bonded warehouse
- 24 hour security backed by armed response
- Computerised stock with batch/ lot number control/management
- Cyclical physical stock counts are conducted regularly
- First in, first out - computerised stock management, including batch number control
- Certificate of analysis issued with deliveries where required
- Average 24 hour delivery service, guaranteed within 48 hours for local deliveries
- Products stored separately by category (food, packaging, toxic etc)
- Quarantine area
- Expedient facilities for COD and Calling customers, with proper financial control
- Warehouse access limited to authorised personnel with due regard to confidentiality
- Immediate reporting and repair or repackaging of breakages, limiting shrinkage
- Expedient management of urgent same day deliveries
- Consolidated cargo for transport to other major centres

2. Distribution

We operate our own fleet of vehicles, ranging from 1-34mt, some with tail lifts. Our vehicles and drivers comply with all specific legislation relating to the transport of various categories of hazardous or dangerous goods.

All vehicles are equipped with cellular phones and satellite tracking devices which are constantly monitored using the latest tracking software.

Attention is paid to regular replacement & maintenance of all our vehicles, to ensure that no delays are encountered with regards to deliveries. All vehicles have the necessary fire permits for flammable products and department of health certification to carry food related products.

Stobel makes use of cross-docking which streamlines the supply chain thereby reducing handling, warehousing and storage costs.

2.1 Volumetric calculations

Consignments are charged by actual (gross) weight or volume whichever is the greater. Volumetric weight is calculated as follows:

$$\frac{\text{Length} \times \text{Width} \times \text{Height (cm)}}{4000}$$

2.2 Delivery lead times

Local delivery instructions received before 3pm each day will generally be delivered the following working day and are guaranteed for delivery within 48 hours. National delivery lead times will depend on area of service. This information is available on request.

2.3 Fuel levy

All transport rates are subject to changes in the fuel price, which are subject to change on the first Wednesday of each month (as released by the Department of Minerals and Energy).

2.4 Hazardous Chemicals

Many companies dabble in the transportation of chemicals and other hazardous goods, but not many can call themselves specialists.

All our vehicles are equipped with all the necessary safety equipment, driver training & emergency procedures to cope with most incidents. We are also contracted to specialist chemical spill response company's in the event of any untimely incident.

3. Clearing & Forwarding

Stobel offers the following clearing & forwarding services for their clients' convenience:

- Bonded Warehousing
- Customs Clearing
- Handling of Containers (Packing / Unpacking)
- National Distribution
- Cross haul from the terminal to our warehouse
- Import / Export Documentation
- Computerised Bill of Entry computer system
- LCL unpack depot collections
