PRESS RELEASE 04/04/2012

DTM TO ATTEND DEFENCE SERVICES ASIA 2012

Drakensberg Truck Manufacturers, a privately owned South African armoured vehicles company, will be attending the Defence Services Asia 2012 Exhibition, to be held in Kuala Lumpur, Asia from 16-19 April.

Exhibiting in hall 1 booth 1010K where visitors will have the opportunity to find out why the Springbuck APC has become so popular in the defence industry.

This permanent 4x4 vehicle not only boast exceptional manoeuvrability but with its powerful MWM 6 litre engine also handles effortlessly on the open road. Special attention has been given to the ergonomics of the driver and its 10 passengers. With a ballistic protection of B6 upgradeable to B7, the all-steel armoured v-shaped hull is designed to withstand a TM57 landmine under the hull or two under any wheel. The standard Springbuck APC configuration can be easily adapted to various applications such as command vehicle, ambulance and cash-in-transit vehicle, and by the addition of a variety of turret-mounted weaponry the vehicle can be effectively used as a combat vehicle. The Springbuck APC is designed for ease of operation and repair, using internationally available drive-line components for assured reliability as well as availability of parts.

As South Africans we look forward to providing potential defence customers at DSA 2012 with the best product in its range as well as the best value available on the market.
