SECURITY

Access Control

Equity Fire Solutions supply and install Intercoms and Access control Systems.

Equity Fire Solutions has the latest generation of industry leading security systems that offer powerful advances in digital video management, smart card application, biometric integration and open IT systems.

- Access control systems are net-workable
- Each cardholder can be assigned unique access security levels
- Card holder location can be tracked to prevent two people from sharing a card
- Cards can be programmed with specific lock out times
- Access Control systems can be integrated with time and attendance software packages

Public Address Systems

CCTV Solutions

CCTV is a critical security tool, not only for security requirements but as day to day management tool. The presence of CCTV has the potential to reduce crime and a proper, well designed system will reduce manpower costs and improve efficiencies.

Shrinkage will be considerably reduced with the introduction of a CCTV system. CCTV camera applications can be used in commercial, industrial, manufacturing and domestic environments.

There are a multitude of different cameras available depending on the specific application:

- Face and number plate recognition cameras
- Pan, tilt and zoom cameras (PTZ)
- Infra Red (multi focal) Cameras
- Wireless Cameras
- IP Cameras
- Net Workable
