---

20<sup>th</sup> October 2012

To Whom It May Concern:

Mech and Hydraulic Services have been working closely with Kansanshi Mining Company for the past 6 years.

They have provided us with excellent service and have been available for our needs 24 hours a day.

They are continually working closely with us in improving all of our Hydraulic Equipment onsite and providing both onsite and external training as part of the development of our Artisans for Kansanshi.

I would highly recommend Mech and Hydraulic Services to any company as a professional and competent company to deal with in every aspect.

Regards

***Shane Mayo***
