

## Who is Televés?

Televés is a leading global company focused in the design, development and manufacture of equipment for distribution of telecommunication services for domestic, residential and commercial applications.

The Televés company headquarters are based in Santiago de Compostela (Spain), where the state-of-the-art manufacturing facilities are located. Televés believes in delivering superior quality products through a high quality manufacturing process.

From humble beginnings in 1958, Televés has grown, from a small company with ten employees, to a leading brand worldwide with commercial presence in more than 90 countries. The extensive product range and Televés guarantee of quality and technical support ensures that the professional installer can provide each individual customer with a quality solution to meet every individual need.

## Televés SA

Televés SA was founded in 2003, and has managed to have a significant impact in the market in South-Africa as well as the other southern regions of Africa. With more than 1500 high quality products available Televés can provide the correct solution for any application.

The team at Televés SA is committed to ensure that the latest technology is always available to our clients. Through constant research and development, fully supported by the engineers at Televés in Spain, Televés SA is able to meet all the demands of the evolving South African market.

With a combined total of more than 50 years experience in the industry in South Africa and abroad, the team at Televés SA will always find the correct solution for any industry related problem that they or their customers may encounter.

Televés SA specialises in solutions for RF and Satellite reception and distribution networks, as well as IP TV and data over cable solutions, both on copper and fibre optic infrastructures.

Televés SA is committed to leadership through quality and service and ensuring that each customer will be provided with a reliable, cost effective and future safe solution to ensure that all our solutions will prove to be a sound investment for many years to come.
