Company Profile and Services

Maletswai IT Solutions was established in 2010 with the aim of providing quality IT services to the Small and Medium-size business. Maletswai IT Solutions is a young and dynamic Information Technology company that specialises in innovative Information Technology Services and Solutions. We provide a portfolio of IT services, software, and technology that solves critical problems for our clients.

Maletswai IT Solutions recognizes the need to help clients to deal with the rigors of modern and identify ways of improving operating efficiency by providing business specific end-user training solutions. Maletswai IT Solutions provides a one-stop IT service solution for the small, medium, large and corporate markets.

Maletswai IT Solutions possesses skills in system analysis and design that ensure innovative and effective solutions across a broad spectrum of technologies. Our sales and consulting services tap into a large knowledge pool that leads to the recommendation and implementation of business relevant solutions.

We specialize in affordable yet extensive tech support and IT services, and we understand that small to medium-sized businesses have vastly different needs than large corporations and that is why we offer a number of options specifically for businesses with 2-75 users. Our primary focus is to respond to our client needs above all else and to establish ourselves as a provider of the highest level of professional IT Services and Technical expertise.
