# Carousel Options

# Wall Mount Accessory

The wall mount accessory is the perfect utility for displaying your brochure holders onto a wall with a clean and professional look.

## Features

- Made from zinc plated wire
- Designed for single application.
- Can also be used in multiple brochure holder combinations cupped together.

Base clips are placed at bottom for support to the wall when a set of holders are [interclipped](#) with each other.

# Wall Mounting

# Base Stand Accessory

The base stand accessory will give your brochure holder even more flexibility in use, no matter what holder you are using. These are great for the hospitality industry, office, retail and exhibition stands!

## Features

- Easy to ship as brochure holders and can be disassembled for travelling.
- Can be used in wall displays for supporting brochure holders to the wall.
- The same universal base fits all types and sizes of holders

# Features

## **^Flop proof brochures**

Expandastand™ brochure holders are designed to keep brochures from bending and thus causing damage. This is done with the molded side supports on either side of the brochure.

## **^All clear holders**

Clear, scratch resistant high density styrene allows for better clarity & durability. More than 50% of the brochure unit is viewable when stacked together, making them a better alternative than acrylic fabricated holders.

## **^Inter-clip**

Brochures can be clipped together allowing you to mix and match different size brochure sizes and create multiple levels for your promotional displays.

## **^Multi mount**

Brochures can be both wall mounted (for wall displays and promotional wall racks) and desk standing (for service desks and information counters), making them re-usable , versatile and cost effective.
