CONSULTING and TRAINING SUPPORT

SHEQworx has the available resources to assist you in satisfying your training needs, no matter how simple or complicated it may be.

We are a training service provider in the Occupational Health and Safety field. We are geared to deliver training in a wide array of Training Programs which are designed to suit you, our client's specific training needs. The contents of the courses are composed in such a way that it focuses on your legal, social and moral obligations to comply with Labour law.

Our consultants are experienced professionals and ready to assist you with your system design, implementation and maintenance. The consulting service is geared to assist you with the A to Z of your safety management system.

IMPORTANT – TRAINING ON OWN SITE

We do on-site training, nation wide! A minimum of 6 learners will be applicable to all the above workshops. It is thus important to bear in mind that, should you require a workshop to be presented at your own site and less than 6 persons attend the workshop, you will be invoiced for the minimum quantity of 6.

CUSTOMISATION OF WORKSHOPS

It is important to remember that we are geared to develop and present customised Health and Safety Training material to satisfy our client's specific needs. It is also our intention to keep all our clients informed of newly developed workshops that becomes available.

WORKSHOP SCHEDULING AND VENUES

A detailed schedule of workshops which will be presented @ SHEQworx Pretoria for 2013 is available on request. This is a golden opportunity for smaller Contractor companies, who may find it difficult to provide the minimum number of learners, to have their employees trained at the Academy.

As mentioned earlier, we do provide a service for our clients on their own sites (anywhere in South Africa and also neighboring countries) as and when required, including week-ends and outside normal working hours.
