

OUT THE BOX SUPPLIES (PTY) LTD

ISN'T IT TIME YOU THOUGHT...OUT THE BOX ?

Suppliers of machinery and equipment to the following industries :
Agriculture / Engineering / Manufacturing / Material Handling / Mining

Out the Box Supplies (Pty) Ltd, was established as a supplier of machinery and associated equipment, to the Engineering and Manufacturing sectors.

The main shareholder is Mr.J.Cox.

Mr.Cox has over 12 years of experience in his field, and comes from a manufacturing background. He used to supply battery chargers and transformers, to the Agriculture, Material Handling and Mining sectors.

He has built his career from the bottom up, and has gained valuable knowledge, when it comes to the every day dealings and constraints, in relation to sales, manufacturing, delivery, servicing, and most importantly, customer relations.

We take pride in knowing, that we only supply items of the highest quality, and strive to live up to our customer's expectations and needs.

With numerous industry related contacts and support, we have all the necessary requirements to ensure that we can offer our customers a complete solution.

Although our core business is supplying to the Engineering sector at present, we have also gained many valuable contacts over the years, with links to other industries. To this end, we have established agreements with a few select companies, all with market leading products and invaluable expertise and backup support.

At present we are able to offer the following products and services, on behalf of our various partners, to the following industries:
