SITE SAFETY

- **WATERFILLED BARRIERS**

Keep your construction area safe at all times by using the waterfilled barriers. At the same time you will be protecting your workers from passing vehicles, trucks etc. Work in a safe environment

- **1.8m BARRIER CONES**

You can identify all possible danger zones keeping your workers and vehicles safe. Colors in orange, yellow, red and white

- **CONTRACTOR CONES**

You can clearly identify and close off construction roads and work zones deemed dangerous. Available in 750mm and 500mm

- **BARRIER TAPE AND XPRESSNET**

You can close off construction areas deemed dangerous as a short term optional barrier. Wooden stakes also available.

- **CABLE STAND**

By using the cable stand you can clearly identify the location of the cables, day or night, to prevent minimum damages to cables.

- **CONSTRUCTION SIGNS**

Create awareness on all possible warnings with use of “construction signs” as well as directing all construction or delivery vehicles
