

Paytel reseller opportunities

Secure your financial freedom with Paytel

Reseller info Pack - let's get you started:

Congratulations on requesting this info pack! This may turn out to be one of the best decisions you have made. Paytel is arriving in South Africa at just the right time, giving you the opportunity to capitalise on little or no competition and a chance to start your own business. We have no doubt that by entering this programme right now, you will have a big advantage to get your foot firmly in the door and capitalise on a great business opportunity. As with most businesses, the people who get involved first, have the best chance to be successful. Below, we discuss important aspects with you, and we explain why it is important for you to act now. Paytel is expected to generate millions in monthly income during 2013. This is your chance to claim your share with an income potential of up to R47,628 per month, or even more. But before we get ahead of ourselves, let's recap what Paytel exactly is.

Who and what is Paytel?

By this time you should have read the Paytel number info pack and understand the Paytel service. Paytel is an online company, launched in 2009, that works with virtual or non-tangible telecommunication products, of which Paytel numbers are one of the primary products. This opportunity will focus on this product range and the new offer that is introduced to the South African market. Paytel business numbers are an innovative business service for all business sizes. Traditionally, premium rate numbers such as those from Paytel were only available to larger organisations like JunkMail, SterKinekor, the AA and DStv. Now Paytel is not only bringing the service to large organisations, but to small and medium-sized businesses as well. The small and medium-sized business market is largely untapped, which gives new Paytel entrepreneurs a massive opportunity to capitalise on this resource and earn excellent passive income. Many customers, such as businesses struggling in a financial low, are drawn by the simplicity and profitability the Paytel numbers offer, which generates income from an existing resource.

Why Paytel?

Simply put – it's the right time and place for Paytel and we have virtually no other competition. Paytel reseller opportunities can be managed and run from any location. We offer 24/7 customer and click tracking with live statistics on who signed up, when they signed up and their current sales status (conversion tracking). Every month all commission is paid out using automated systems, even directly to your sales agents and affiliates. One of the best things about this opportunity is that Paytel numbers are non-tangible online products. This means that you don't have to handle, buy or store any stock, it cannot perish, needs no set-up, no delivery, no hardware or software installation. Our head office does all the product support, billing and administration. Unlike many other service providers, our numbers have only a few limiting factors. It only requires that your customer has an existing land line or switchboard. It does not require an ADSL line or any change in the current set-up. This means that it offers a much broader and larger market potential, allowing you to target from large corporations to small home businesses. The only limitation is your ability to market and reach potential customers.

The Paytel number offers you a powerful opportunity where you could achieve your financial goals without affecting your current schedule and job, part-time or full-time. Your present location is ideal. You will have access to this complete turnkey system along with online training and support. Your customers can try Paytel on a free 30-day trial, making it easier to promote and ultimately leading to more income.

Quick overview of two options:

1) Affiliate Program

1 Referral Program
Earn R180 per referral
FREE
[Learn More](#)

2) Business Opportunity

2 Business Opportunity
Earn life long commission
90 Day Free Trial

1. The affiliate programme:

The free referral programme, aka the affiliate programme, is aimed at people with websites, online marketers or the part-time person with no start-up capital. As an affiliate, you will simply slot in under a dealer and have access to many free online and offline marketing tools, such as banner ads, newsletters and free SMS tools. Learn more below...

2. The business opportunity:

For people who are more serious and who are interested in earning a continuous life-long income, look no further than the Paytel dealer programme. The Paytel dealership earns you Rands and was voted one of the best new sources of passive income in South Africa by some of our dealers. As a Paytel dealer, you will earn commission from sign-ups (as with the affiliate programme) as well as a fixed and ever-growing per minute income on all incoming calls to Paytel numbers in your network. For every business you signup, you will earn on average 15c per minute per call, per phone line. The Paytel dealership is a highly rewarding programme that offers a strong return on investment. As a dealer, you can signup your own agents (or affiliates) and earn on their sales as well. The ongoing monthly income potential of the dealership then grows exponentially. Signup a customer once only and keep on earning on that customer continually every month for years to come. This allows your income to grow monthly and when you stop working or go on holiday, you will still earn money on sales you did years ago. Every time your customer receives a call, both you and your customer make money. Learn more below...

Affiliate earnings: Once only commission

Number of customers	Profit
10	R 1800
50	R 6000
100	R 18 000
150	R 24 000
3 sales per work day	R 11 340 pm

Dealer earnings 1:

Signup small businesses (receive minimum 40 minutes of calls per day)

Number of customers	Once-off commission	+ Additional permanent income stream*
100	R 20 000	+ R 12 600 pm ongoing
150	R 30 000	+ R 18 900 pm ongoing
360	R 72 000	+ R 45 360 pm ongoing
500	R100 000	+ R 63 000 pm ongoing
1000	R 200 000	+ R 126 000 pm ongoing
2000	R 400 000	+ R 252 000 pm ongoing
3 sales per day	R 75 600 after 6 months	+ R 47 628 pm ongoing after 6 months

80	R 16 000	+ R 63 000 pm ongoing
160	R 32 000	+ R126 000 pm ongoing
250	R50 000	+ R187 500 pm ongoing

1) Affiliate programme:

People love Paytel's referral programme because it generates income quickly and easily. It's simple, highly rewarding and profitable. To generate income, send customers to the referral link (website) which we will give you, or forward our easy predesigned emails or free SMSs to people who you think might benefit from it. You will earn R180*(50%) from every sale originating from a click on your ad or link. It's that simple! Our free marketing tools include a large variety of ads, emails and SMSs that you can use.

The easy customer tracking and management system will help you to know exactly who's clicking on which of your ads, emails or links and what you are earning. Tell businesses and friends about Paytel, display Paytel banners or ads in your emails or on your website and you will make more money than with any other programme. Paytel numbers are simple to understand and, best of all, can be tested free! The bottom line is that higher conversion rates lead to bigger profits.

Our affiliates are crucial to the company's success and we want affiliates to succeed. It is for this reason that we will do everything possible to help you make money, as our success is linked to your success. This is also why we are passing the bulk of our sign-up commission to you. Earn 50% (usually R180) per activated customer that signs up through your free referral link. Refer ten and earn R1800.

One of South Africa's most rewarding programmes

100	R 18 000
150	R 24 000
3 sales per work day	R 11 340 pm

2) Business opportunity

1) What it's about

We are excited to present the Paytel dealer programme to you. To us there is no question that people who get involved early will generate a huge profit. Paytel is an innovative service for all business sizes. Traditionally, premium rate numbers, such as the Paytel number, were only available to large corporations like JunkMail, Ster-Kinekor, the AA and DStv. Now Paytel is not only bringing the service to large organisations, but to small and medium-sized enterprises as well. The small and medium-sized business market is largely untapped, giving new Paytel entrepreneurs a massive opportunity to capitalise on this resource and earn an excellent passive income. Many customers, such as businesses struggling in a financial low, are drawn by the simplicity and profitability of the Paytel system, which generates income from existing infrastructure without having to spend any additional resources.

2) How it works

Unlike the free Paytel affiliate programme, which only pays commission once per sale, the Paytel dealership also offers a recurring income from all calls received by all your customers. This is an easy-to-run business that anybody can join and manage from any location. Dealers earn on average 15c per minute from all incoming calls received from their entire customer base. If you consider a small to medium-sized business with two to five incoming lines and imagine the number of calls they receive daily on each line, you will quickly understand the profitability the Paytel reseller system offers. In fact, if you have three sales reps who each signs up three businesses per day, and each of these businesses receive only 25 minutes of calls per day, you will earn R37 800 as a once-off sign-up commission for that month, plus a total passive income of R14 883.75 per month for as long as they keep using the service. If you can continue this sales trend for six months, you can earn R89 298 per month in passive recurring income after six months alone and would have received R226 800 in once-off sign-up commission. Providing you have good customers that keep on using the service, it is entirely possible for you to generate a sustainable income over a very short period of time. Granted, it is not that easy to sign up nine customers per day (three telesales agents each doing three customers per day = 9) but it can be done depending on your commitment and sales techniques. But if you consider that you could sign up businesses that receive double or even ten times the number of calls per day, you could easily double your profit for the same effort.

Dealer earnings 1:

Signup small businesses (receives minimum 40 minutes of calls per day)

Number of customers	Once-off commissions	+ Additional permanent income stream*
100	R 20 000	+ R 12 600 pm ongoing

3) Passive income

All businesses receive inbound phone calls and every day millions of phone calls are received in South Africa alone. No business can function without this essential service. The Paytel dealer programme promises recurring passive income and unlimited support. Unlike any other dealer programme in South Africa, the main benefit of becoming a Paytel dealer is to ensure a life-long annuity-based income, providing that your customers keep on using the service. Signup a customer once and keep on earning every month. Every time your customer receives a call, they are making money... and so are you!

Almost no other dealer programme offers you a life-long recurring income for products which are sold ONCE.... and then used repetitively on a daily basis. Aimed at the public and small businesses, the market is vast. It will of course require hard work and commitment to succeed. Your business will be growing rapidly as profits build up and add onto each other every month, creating an ever-increasing revenue stream. The opportunity offers passive income, and once you start earning R50 000 per month, you could effectively go on holiday. Providing your customers keep using the service, you will keep earning your profit for life. No employees, no overheads, no stock and no worries. With life-long commission, if you keep on promoting, imagine what you will be earning when you retire!

4) Your obligations

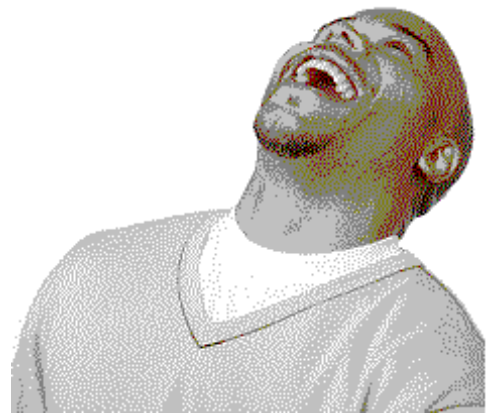

Individuals that signup for the business opportunity can potentially earn enormous amounts. We expect that applicants dedicate time and effort to make a success of their business. As a Paytel dealer, it would be in your best interest to sign up both sales agents (affiliates, sales reps, etc.) as well as customers. The fastest way of increasing your profit is to set up a sales team. This can be done the old-fashioned way (such as telesales or door-to-door), which is very effective, or online by promoting your referral programme and letting people refer to your website. Better yet, is to promote your business on both fronts.

The Paytel management system allows you to signup agents and automatically manages their commission, sales and payouts. Each agent will receive their own unique referral code and referral website link. When the applicable referral link is used, they will earn commission and the system will automatically pay them. You will be able to monitor their sales, performance and stats. Each agent has a control panel to manage their own sales and stats. Since these features are already built into your website, all you need to do is generate traffic to your website by promoting it.

5) What you get

- As a Paytel dealer you will obtain the right to promote the Paytel system and product range
- You will receive a customer website
- Automatic billing to and from customers
- Automatic profit payouts
- Management console to monitor stats, clicks, sign-ups, profit etc.
- Online training and telephone support
- Sales rep sign-up and management system

90-day free trial = **NO RISK!**

6) Benefits

- Virtual product (not a physical product that requires storage, etc.)
- Can be managed and run from any location
- Can be promoted online, via call centre and via sales reps
- Fixed pre-calculated remuneration model for dealers, affiliates, agents, etc.
Easy to manage and monitor
- Offer good passive income and instant cash
Can start generating income in only 30 minutes
- Unique product with very little competition
- We do all the technical support, billing and profit payouts
- Get a customer once and keep on earning on that customer for life or for as long as they use the service.
- Limited number of dealers
- Your profits will depend on your inputs and commitment.

7) Start-up cost

The Paytel dealership is a serious opportunity that requires an investment of R18 800. The aim was never to make money from dealership registrations which are why it is such a good price. The dealership offers a limited opportunity with large income potential. Secondly, we are focused on rapid growth, so people who are making this commitment early will receive the most benefit.

The good news is that the full payment is not required upfront. Even though the business is a real give-away at R18 800, it is still a lot of money to spend randomly. Ultimately you should first be happy with the decision you are making. We would therefore like to give you the opportunity to try it first, without any risks. So for a limited time and a limited amount of people we will only require a R500 refundable deposit to kick-start your business. The deposit is mainly required to show that you are serious. If you cancel at any time during the 90-day trial, your deposit will be refunded.

90-Day risk free trial

Once your deposit is paid, your account will be activated on a 90-day trial. You will then be able to login to your dealer dashboard to see exactly how everything works. You can even start doing sales and promotions to test the market – all at no risk to yourself. Commission earned and customers you sign-up during the trial will all be credited to your dealer account. After the trial expires, you will have the option to pay the full dealership fee – ONLY IF YOU WANT TO. You will have no obligation to pay unless it is something you want. If you would like to continue, but are unable to pay the fee at that time, your deposit will become non-refundable, and you will receive a 45-day extension and an option to pay over three more months..

Best of all is that you will only have to pay the difference from profit you made during the trial. If you made more than R18800 during the trial, you get the opportunity free. Or if you earned R14500 during your 90-day trial, you will only have to pay in the difference of R3500 to activate your dealership.

Trial = No obligation

8) Conclusion

Please don't delay, as this opportunity will close soon. Money made during the free trial can be used to pay your signup fee, allowing you to start this business virtually free. You'll agree that the best thing you could do is to sign up and see how it works for yourself. The sooner you sign up, the sooner you may be on the way to financial independence. Opportunity knocks only once, and it's up to you to turn the door knob and let it in!
