Earthworks Demolition

We prepare sites you can build on

Bulk Earthworks, Demolition & Civil Engineering Contractors

Icon Earthworks is a trusted provider of Bulk Earthworks, Demolitions and other related civil engineering and construction services that are needed to get a commercial, industrial or mining site into an ideal state of build readiness. Subject to requirements, we can provide a complete, end-to-end solution, or render each of our services independently. Our portfolio includes numerous prestigious projects for some of the leading contractors and developers in South Africa and the rest of Africa and we have an unrivalled reputation for delivering on specification and well within the deadlines provided. The key elements which we believe enable us to do so and that sets us apart are: our knowledge, equipment, price, safety and reliability.

Our knowledge...

From each of our directors, right through to every single worker or equipment operator; all our staff members have many years of hands-on experience of the industry. We furthermore ensure that we attract the best specialists in their field by paying top dollar. And we keep our skills sharp through continuous training and testing.

Our equipment...

We have an extensive fleet of all the relevant plant and equipment, with our own in-house workshop facilities and maintenance crew who is responsible for the upkeep of it. This not only contributes hugely to seamless and timely service delivery, but it naturally translates into an economic benefit for our clients too. We constantly do research and build our fleet up even further, to make sure that we remain at the cutting edge of the latest technology.

Our price...

We keep our infrastructure and operations lean and mean to ensure that we remain competitively priced. Ultimately we take pride in the fact that what we charge our clients; corresponds sensibly with the value that they get.

Our safety...

The wellbeing of our workers, the environment and the communities within which we operate, are at the heart of everything we do. We frequently review all the applicable environmental laws and regulations, and we have an uncompromising approach to following all the required health and safety standards and procedures. To ensure that it is deeply embedded into our daily operations, our staff members receive training on these issues, on an ongoing basis.

OUR SERVICES in a nutshell

BULK EARTHWORKS

- FAST TRACK Industrial and Commercial Earthworks
- Basement Excavations • Cut to Fill • Aggregate supply

DEMOLITION

- Industrial and Commercial Demolition • Crushing and Screening • Abatement and Site Rehabilitation • Salvage

MINING

- Mine Development • Rehabilitation • Box cuts
- Load and Haul Operations

CIVIL ENGINEERING

- Pipelines • Roads • Township Services • Concrete works • Culverts and Storm Water

Our reliability...

With an impeccable track record of numerous high profile projects that have been successfully completed, we believe that our work speaks for itself. The details of some of these projects are highlighted here below; so feel free to speak to anyone of our clients to find out why you can always count on us.

Our management

Our Management

The most powerful knowledge in the civil engineering and construction industry is that which cannot be learnt by theory, but that has been gained through hands-on experience. At Icon Earthworks each of our directors has personally worked in the civil and construction field, for no less than between two to four decades. Collectively, we have practical expertise of the full roll out and project management of domestic and international projects in bulk earthworks, roads, pipelines, demolition, building and development and township services. We are convinced that this kind of know-how adds depth and insight into our projects, which cannot be attained otherwise. In short, we know our stuff, and we leverage this to the advantage of all our clients.

Eddie Neary	Chief Executive officer
Wayne Neary	Chief Operations Officer
Riaz Mehtar	Contracts Manager
Craig Alboroug	Commercial Manager
Daniel Lubbe	Plant and Equipment Manager
Zeenath Mehtar	Administration Manager

Our Plant and Equipment Resources

In order to uphold the high levels of efficiency and service to our clients, we continually invest in our plant, equipment and fleet ensuring that we are always on the cutting edge of technology.

Our plant is regularly inspected and certified ensuring compliance with all safety and operating standards.

The plant, equipment and fleet is utilised optimally and we have dedicated teams maintaining all aspects of logistics and cross border operations assuring ongoing support locally and abroad.

We own and operate the following types of plant, equipment and vehicles:

- Articulated dump trucks
- Excavators
- Graders
- Tractor, Loader, Backhoe (TLBs)
- Crane trucks
- Water trucks
- Wheeled excavators
- Mechanical support units
- Bulldozers
- Front end loaders
- Tipper trucks (10m³ and 15m³)
- Low-bed trucks
- Crushers and screens
- Vibratory rollers
- LOV Icon

“All bells and whistles aside... When it comes to construction projects, you simply need someone you can trust to get your site ready for building purposes, without any unnecessary delays in this critical phase. At Icon the very foundation of our business is built on doing exactly that. We prepare safe efficient sites you can build on... On time, on spec... at the best possible price.”

Some of our latest projects

MTC-Midrand, New Head Office of Gautrain

Client: Growth Point Properties
Mr Juan Herrero (011) 944 6001

Professional: Construction projects and developments, Jamie Raubenheimer (011) 463 0723

Professional: Davis Langdon An Aecom Company, Michiel Gerber (011) 666 2000

Scope: Icon Earthworks provided an end-to-end solution for this project, which involved the demolition of existing structures and parking facilities, as well as doing bulk earthworks and piling for the basement excavation. The total value of the services amounted to just under R3 million.

Duration: 6 Weeks

Avroy Shlain, New Distribution Warehouse, Midrand

Client: Growth Point Properties
Mr Juan Herrero (011) 944 6001

Professional: Norval Wentzel Steinberg (Pty) Ltd, Justin Roux (011) 804 4038

Scope: Icon Earthworks was able to provide an end-to-end solution for both the demolition and bulk earthworks of this project. An existing conference centre had to be demolished and the bulk earthworks involved the clearing of some 10 000 m³, as well as the cut-to-fill of 6 500 m³.

Duration: 5 weeks

Ferro, New Manufacturing Facility Brakpan

Client: Clearspan Projects
Mr Peter Hunter (011) 823 2402

Professional: Rosnovanu & Associates consulting Engineers, Jon Rosnovanu (011) 803 1072

Scope: The project involved the cut-to-spoil of 40 000 m³, the cut-to-fill of 10 000 m³ and the preparation of some 35 000 m³ of platforms and roadways. In spite of the scale of this project, Icon Earthworks managed to complete it on spec and within budget, within six weeks, which was three weeks less than the time originally provided for it.

Duration: 6 weeks

Xai-Xai, irrigation scheme

Client: ENOP

Ref Eng: Miguel Gomes
00 258 148 7480

Scope: The contract involved the excavation of a canal some 5 km long and 4 m deep and 10 m wide involving some 22 500 m³ of earthmoving an additional 20 km of canal where reshaped and rehabilitated.

Duration: 5 months (value R7m)

Hobart Office Park, Head Offices of Sedgeley Developments

Client: Sedgeley Developments
Mr Hedley Gerhardt (011) 463 4334

Professional: C-Plan Civil Engineers (Pty)Ltd, KC Ooijkaas (011) 472 2277

Scope: The project involved the clearance of 45 large trees and an area of 10 000 m², followed by basement excavations and filling of 5 500 m³

Chowke, Irrigation project, Mozambique

Client: ENOP

Ref Eng: Miguel Gomes
00 258 148 7480

Scope: The contract involved the construction of new canal walls, and shaping of existing canals more than 300 000 m³ of earthmoving.

Duration: 6 months (value R9m)

OUR VISION

- To be the civil contractor of choice in the African construction industry.
- To focus on continuous and sustainable top- and bottom-line growth.
- To create a desirable place of work that stimulates creativity and generates enthusiasm within a safe working environment.

OUR MISSION

- To contribute to the success of each contract by creating an enthusiastic and co-operative environment that emphasises respect for all stakeholders.
- To achieve optimum quality, efficiency and innovation for our clients, while ensuring absolute safety for all.

Rand Water	Pipeline Construction Klipriversberg	Excavation Laying + Welding 4.6 km 1.8 m Diameter
Rand Water	Pipeline Construction Eikenhof	Excavation Laying + Welding 10 km 1.8 m Diameter
African Products	Pipeline Construction	Excavation Laying + testing 24 km 250 mm Diameter

She Q Policy

We are a level 3 contributor

We are motivated by the potential to be harnessed through celebrating diversity and incorporating empowerment into our business culture. The broad-based nature of empowerment in South Africa presents an effective solution to addressing historic economic and social inequalities, and to this end we support the B-BBEE Act and the Codes of Good Practice for B-BBEE.

Safety and health

Icon Earthworks (Pty) Ltd is committed to building and maintaining a safe working environment and continual improvement with clear and non-negotiable standards and procedures. Our approach goes further than achieving our safety objectives with a zero-harm philosophy. We pro actively foster a safe working environment and enhance the wellbeing of our employees and that of the communities within our areas of operation.

We are committed to complying with all relevant legislation including the Occupational Health and Safety Act 85 of 1993 current environmental laws and regulations. Compliance with legislation is important to us to the extent that it provides a minimum standard for the development of our systems and procedures. We regularly review this legislation and where necessary address new requirements. In addition, we provide intensive ongoing training to employees to ensure they are informed of the full extent of their safety and health obligations.

Environment

Icon Earthworks (Pty) Ltd emphasises environmental awareness in all we do. We are keenly aware of the impact we and our projects may have on the environment and, as a result, implement programmes and policies to minimise adverse effects focusing on construction methods and materials that allow for a 'greener' project construction process.

We conform to all client and project -specific environmental management plans to ensure the impact of our activities on the environment is controlled within the guidelines specified.

Quality

Earthworks (Pty) Ltd We implement intensive development and training programmes in an effort to constantly raise our performance and set standards at the level we consider in keeping with our approach of delivering quality products to our clients.

We believe that skill, knowledge, experience and discipline are essential to our achievement of sustainable growth.

We also actively encourage our suppliers to continually improve their standards of delivery. We have pride in all we do and the quality of our projects bears testimony to this commitment.
