

HYUNDAI

NEW THINKING.
NEW POSSIBILITIES.

ACCENT

GOOD LOOKS
WITH GREAT PERFORMANCE

ACCENT

Just take one look at the Hyundai Accent, and you will see Hyundai's Fluidic Sculpture design philosophy in practice. The Accent incorporates features found in higher class cars and delivers ground-breaking performance and robust styling that sets it apart from the competition.

ACCENT

SUDDENLY STARING IS THE POLITE THING TO DO

The fluidic sculpture design theme that sets Hyundai apart has been extended to the Accent. It has been given a distinctive front fascia, a bold rear bumper design and flowing lines that you wouldn't normally find on a vehicle in this class. Those who drive it love it. Those who see it want it. The all new Accent – make sure you stare.

HEADLAMPS

The sleek headlamp design provides optimum brightness at night, as well as an integrated look to the front fascia of the vehicle.

FOG LAMPS

When the sun goes down, the standard fog lamps give you a better view of the road ahead and are noticed by those who appreciate thoughtful design and attention to detail. The fog lamps also provide extra visibility in foggy weather conditions.

SIDE MIRROR INDICATORS

For increased safety when turning, the stylish and modern indicators in the side mirrors give those around you extra visibility and safety when indicating.

REAR COMBINATION LAMPS

The stylish rear end of the Accent is accentuated by the rear lamps. These lamps form a harmonious part to the rear and sides of the Accent and deliver highly visible illumination when the brakes are activated.

WHEELS

The Accent comes with 14" steel wheels with attractive spoke pattern wheel covers for a modern appearance. For your convenience and safety, there is a full size spare wheel which is located in the rear of the vehicle in case of emergencies.

SIGNATURE GRILLE

A distinctively large hexagonal radiator grille in chrome and high gloss black exudes an aggressive yet refined image, further enhancing the fluidic design.

COLOUR CODED DOOR HANDLES

To further enhance the stylish exterior of the Accent, the door handles have been colour coded to match the body colour.

Hyundai

HAVE A LASTING EFFECT

The Accent is a classic sedan with an elegant profile. The design features a sweeping roof and forward thinking lines to show off the accentuated styling of the vehicle. Whether you are collecting friends or arriving for that important meeting, the Accent gives the correct impression to have a lasting effect.

GET USED TO MORE SPACE

Whether you are popping down to the shops, or going on a long journey, the Accent's interior offers an abundance of features and space for maximum comfort and luxury. The interior is not only spacious, but stylish too – with plenty of leg and head room for the driver as well as front and rear passengers. Reinforced with sound proofing, which has been optimised throughout the vehicle, the interior is quiet and considerate.

BLUETOOTH

Equipped with state of the art Bluetooth functionality (Fluid Model), you can make and receive phone calls hands free through the vehicles audio system, keeping the driver and passengers safe – whilst optimising convenience. By pairing your mobile device with the audio Bluetooth system, you are sure not to miss any calls.

AIR CONDITIONING

The air conditioning in the Accent is convenient and has an instantly recognisable triple dial knob/type control system, which lets you easily adjust the air conditioning throughout the interior of the vehicle.

iPOD AND USB PORT

There is a USB port conveniently located on the front console which allows you to connect a compatible mobile device and play your music through the vehicles stereo system. Simply put: its plug and play on the move.

AUDIO SYSTEM

All Accent models come standard with an advanced and sophisticated audio system featuring a radio/CD/MP3, which plays through 4 speakers while the Fluid has 2 additional tweeters, to ensure that only high quality sounds radiate through your Accent.

LUGGAGE SPACE

The Accent comes with an impressive luggage storing capacity. This sedan offers 389 litres of carrying space or enough to hold 2 golf bags and 3 small bags with ease.

UP & DOWN HEADRESTS

For ultimate comfort, both the driver and passenger seat head rests are easily adjustable – up and down – raising to suit you in comfort and safety.

AUTO UP & DOWN WINDOW CONTROLS

To provide the driver with absolute convenience and easy access, the auto up and down window controls are ergonomically located in close proximity to the driver's steering column. When activated, the windows will move upwards or downwards without having to hold the button in place.

STEERING WHEEL MOUNTED AUDIO CONTROLS

For an added touch of convenience and technology, the Accent Fluid has an integrated audio control steering wheel which allows you to control the audio system and adjust the volume with the remote control. This innovative feature ensures your hands are kept securely on the steering wheel – which is where they need to be.

MEANT FOR YOU, IN EVERY WAY

Take a seat in the Accent and you will realise that it has been designed specifically for you and your needs. The interior design has been as thoughtfully considered as the fluidic design of the exterior. Once you have taken the Accent out on the open road, you will realise why this is one of Hyundai's favourite models.

IMPRESSIVE PERFORMANCE

When you drive the new Accent, you are immediately struck by the quiet ride, the generous interior space and the modern styling. You will also notice something else too: the fuel gauge hardly drops. That is because Hyundai engineers have devised one of the most fuel efficient engines there is, one that takes only 6 litres of fuel burned to run for 100km*, in the case of the 1.6 Manual transmission – ensuring you go further for less.

*Driving conditions and style dependant.

GAMMA ENGINES

Hyundai's engineers are some of the best in the world – they have pushed their standards for engine design and build quality to the very maximum. The Accent's Gamma engine is lightweight which enhances its fuel economy, and amazingly manages to still produce a maximum of 91kW at 6300rpm and delivers a maximum torque of 156Nm at 4200rpm. Guaranteeing you more than enough driving confidence for those overtaking situations.

AUTOMATIC TRANSMISSION

For absolute driving comfort, the automatic transmission of the Accent delivers an unsurpassed driving experience. The automatic transmission varies the oil pressure for smoother shifting and this four speed automatic transmission manages to offer drivers a highly responsive and sporty acceleration.

MANUAL TRANSMISSION

For a more controlled drive, the manual transmission of the Accent allows for smooth, noiseless gear shifting. The all new 6 speed manual gear box has great all round performance thanks to a key and ball – type synchromesh with optimised gear tooth shape and precision machining.

REAR PARK ASSIST (FLUID MODEL)

For safer parking and reversing, sensors are mounted in the rear bumper of the Fluid model to help detect the unseen dangers. Should you get a little too close, RPA issues an alert to the driver, warning of the danger.

ANTI-LOCK BRAKING SYSTEM (ABS)

ABS is a big deal when you are driving in the city and on the highway. The anti-lock braking system helps prevent the possibility of your wheels locking up under hard braking, to help you retain steering control of the vehicle as you come to a stop.

ELECTRONIC BRAKE FORCE DISTRIBUTION (EBD)

With the Accent you know you can control the vehicle with confidence, knowing you have Electronic Brake force Distribution (EBD). This dynamic system balances the braking forces at each wheel to help you maintain control during sudden braking. In the Accent, you can brake with composure each and every time.

SEAT BELT PRE-TENSIONERS

Make sure you always wear your seatbelt. The driver and front passenger seatbelts are equipped with pre-tensioners that automatically tighten the belts in the event of a collision. They hold you in the proper position in case the front airbags are required to deploy, making the airbags even more effective.

SOPHISTICATED SAFETY COMES STANDARD

Don't be fooled by the Accent, it's a sedan that provides full-sized safety in every possible way for both the driver and passengers. Its standard active safety systems react instantly and predictably to help you avoid an accident and keeps you safe in case of emergencies. You can be assured, that through the advanced safety systems of the Accent, you and your family will be safe and secure.

PERSONALISE YOUR HYUNDAI ACCENT WITH GENUINE HYUNDAI ACCESSORIES

At Hyundai we understand that everyone is an individual and that your car should reflect this too. That's why we provide an exceptional range of genuine accessories, designed and built to Hyundai's high quality standards to ensure you get the most out of your vehicle. Carefully selected material along with innovative design and practical technology ensure that there's something to cater for your unique tastes and needs. From bicycle racks to transport your other set of wheels, to DVD systems for those long distance trips with the family, whatever your lifestyle needs, we've got you covered.

(D)

(G)

A – ROOF MOUNTED BIKE CARRIER

The Thule Pro-ride roof mounted bike carrier is light and elegant. Bikes can be loaded and off-loaded easily from roof level with the quick release wheel straps.

B – ROOF RACKS

The sophisticated Box Beam aluminium extrusion creates one of the strongest load bars in the market. The Roof Racks look great and are compatible with a wide variety of Thule products.

C – REAR PARK DISTANCE CONTROL

Squeeze into the tightest of spaces with Rear Park Distance Control. Four sensors mounted in the rear bumper are automatically activated when the vehicle is placed in reverse, emitting a warning tone to alert you when objects are near.

D – HEADLIGHT GUARDS

The headlight guards are designed to fit the contours of your Accent and add a unique styling to your vehicle. They are tough and easy to clean and protect your headlight lenses from chips, marks and scratches.

E – BONNET GUARD

Maintain your Accent's pristine showroom look and guard against unsightly chips, marks and scratches by fitting a durable and easy to install bonnet guard.

F – SLIM LINE WINDOW VISORS

The window visors enhance the look of your Accent while allowing air flow into your car with the windows partly open.

G – ROOF BOX

The Thule Pacific 200 Roof Box has a storage capacity of 410 Litres and can be opened from both sides for convenient fitting, loading and unloading.

IT'S A WONDER

You may be asking yourself how the Accent manages to include everything you need. You can ask yourself how it blends style and economy so well, but really there is no need to question it. Just take a seat in the Accent and enjoy the ride.
