

NEW THINKING.
NEW POSSIBILITIES.

ix35

LEADING,
NOT FOLLOWING.

ix35

Fluid, dynamic, motion made easy. This is how you always imagined driving to be – and this is where you want to be. Introducing the ix35 – a new concept in Crossover Utility Vehicles.

YOU, YOUR WORLD, AND YOUR CAR

The ix35 is a synthesis of flawless, cutting-edge design, embodying style in every curve. Sporty and powerful, yet at the same time, refined and relaxed. Its hexagonal radiator grille exudes strength, just as its sloping tail gate, oversize rear bumper and aggressive stance conveys purpose and sophistication. Your vision of a car, in three dimensions.

ELECTRIC FOLDING MIRRORS**

The side mirrors are not only electrically adjustable, but are also heated, and incorporate LED side repeaters for improved visibility while enhancing the mirror design. The side mirrors can be conveniently folded at the touch of a button - just the thing to get you out of a tight spot.

PANORAMIC SUNROOF*

The large glass Panoramic sunroof covers the entire roof surface and augments openness, light and air circulation inside, as well as contributing to the overall trendy urban exterior. The black colour of the glass imparts a sense of openness while providing privacy. The roof guarantees safety with the use of safety glass and safety mechanisms. Inside, the adjustable roller blinds can be shifted to a position of your choice, or closed to block out 100% of the light.

exper!ence
Hyundai

**Elite & Executive Models *On A/T R2.0 Diesel Elite.

A DESIGN THAT FLOWS

Boldly defined lines and a commanding profile communicating confidence. A silhouette which blends gentle slopes and precise contours to redefine sporting prowess, as well as sleek aerodynamics. Sculpted, organic, undulating.

WHEELS

The Premium model is equipped with 17" stylish alloy wheels and 225/60R tyres. The Executive and Elite models come with 18" alloy rims in a head-turning design and mounted with 225/55R 18" tyres and Hyundai logo wheel caps.

FOG LAMPS

New-style front fog lamps are neatly integrated into the bumper and are positioned low to the ground for maximum effectiveness while driving in misty, foggy weather.

HEADLAMPS

The ix35's sporty high tech headlamps connect with and give definition to the characteristic fluidic sculpture design. The polycarbonite headlights are chip, crack and sun fade resistant. This improves the quality of the light projection and the life of the headlight.

SIGNATURE GRILLE

A distinctively large hexagonal radiator grille in chrome and high gloss black exudes an aggressive yet refined image, further enhancing the fluidic design.

REAR COMBINATION LAMPS

Rear combination lamps accentuate the fluidic line that commences in the front and carries through to the rear, emphasising the ix35's sporty character.

YOUR INTERIOR AND YOURS ALONE

The most important things are the most personal. So the ix35 allows you to customise the interior settings just the way you like it. Set the monitor to provide information such as distance to empty, average speed or average fuel consumption. Listen to music any way you want - CD, radio, or from an iPod, MP3 or USB.

Disclaimer: Satellite Navigation available as an aftermarket option and may vary from image.

ENGINE START/STOP BUTTON*

Keyless ignition for security and convenience. Adds more than a touch of style.

REAR VIEW CAMERA

A rear camera display is incorporated into the electro-chromic rear-view mirror, to make parking easy.

BLUE LED LIGHT CLUSTER AND TRIP COMPUTER

The sporting influence is clear in the cylinder-type cluster, highlighted by blue lights that give a high-tech look. Between them is a trip computer displaying information in text or icons.

X-DESIGN CENTRE FASCIA

Overall x-shaped centre fascia gives a dynamic & unique appeal to the interior design. Black gloss & metallic paints accentuate controls & switches to achieve a high class finish.

DUAL FULL AUTO AIR CONDITIONING

The 2.0 Premium model features standard air conditioning with a 4 speed fan and a Max A/C button allowing for faster cooling. The Executive and Elite models feature Dual Zone Climate Control. This allows the two front occupants to individually set their respective temperatures. The system also includes a Cluster Ionizer which stops fungus growth by generating positive and negative ions. This provides clean air and a healthy interior environment.

*On A/T R2.0 Diesel Elite.

BEAUTY ENRICHES THE SOUL

What surrounds you is important. The most precious environment is one that you respond to naturally. Ergonomic, tactile and easy on the eye. One like the ix35's - a space that mirrors your stylish sensibilities. Overhead, a panoramic sunroof to let the light in. A sliding headrest, so you can find the most comfortable driving position. Start/Stop button & keyless ignition, for the ultimate convenience. The ix35 is truly harmonious & an instinctive driving experience.

MULTIMEDIA SOUND SYSTEM

The integrated audio system features Radio/CD with MP3 and the ability to integrate with a wide range of external devices. The system features 6 quality speakers, two located in the front doors, 2 located in the rear doors and 2 tweeters located in the front doors. The R2.0 Elite AWD has the addition of an amplifier which further enhances the quality of the audio system.

AUX, IPOD AND USB CONNECTION

Allows you to enjoy your favourite tunes by playing music files from mobile storage devices.

STEERING WHEEL REMOTE CONTROLS

The conveniently placed audio controls allow you to safely adjust volume, skip songs & change stations as well as interchanging between devices, all whilst keeping your hands firmly on the steering wheel.

BLUETOOTH HANDS-FREE*

Integrated Bluetooth allows phone calls to be made and received hands-free using your Bluetooth-compatible external device.

*On Executive and Elite.

PERFORMANCE YOU CAN FEEL

Performance with efficiency. What every car seeks. The die-cast aluminium engine features variable valve timing and a variable induction system. Nothing intrudes on the powerful performance and fluid motion delivered. Vibration is minimised and there's hardly any noise when idling and accelerating. The reduced overall weight enhances fuel economy. Dynamic and forceful, yet quiet and effective. Strength is truly beautiful when it wastes nothing.

DOWNHILL BRAKE CONTROL (DBC)

For when things get steep. To keep control and maintain steady speed on steep, downhill descents, engage Downhill Brake Control. The DBC will automatically apply braking force to ensure that the driver does not lose control of the vehicle. Once activated, the vehicle will descend using the ABS brake system to control each wheel's speed.

POWERING YOUR RIDE

The ix35 is powered by your choice of two engines. The 2.0l petrol engine provides 122kW of power and 197Nm of torque, and the innovative R2.0l diesel engine produces an impressive 130kW of power and 383Nm and 392Nm of torque for the manual and automatic transmissions respectively.

TRANSMISSION

The 2.0l Premium and Executive Manuals are matched with a reliable 5 speed transmission. The R2.0l Diesel model is matched with a 6 speed manual transmission. The 2.0l and R2.0l Diesel Executive models are matched to a 6 speed automatic transmission. The step gate shift pattern on the Automatic transmission eliminates the possibility of a missed shift, while the smooth manual transmission provides for an easy shifting motion.

SHAPE IT THE WAY YOU WANT IT.

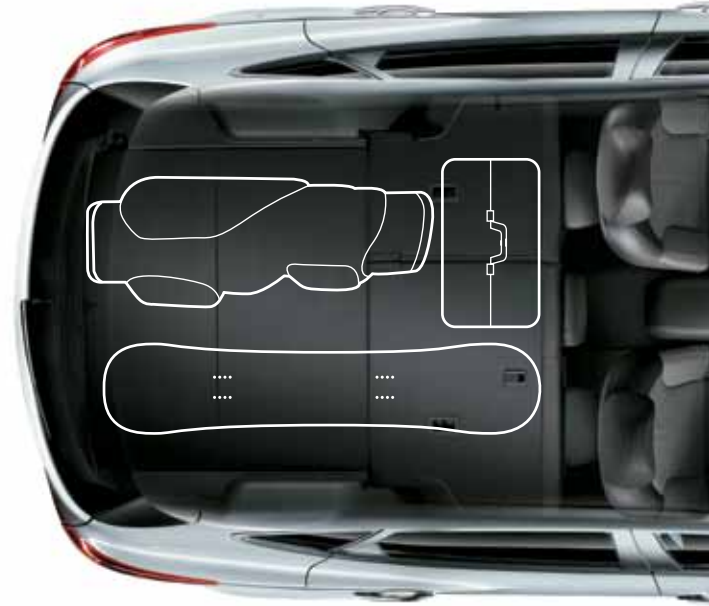

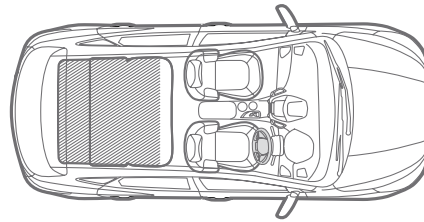

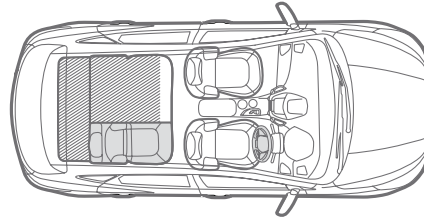

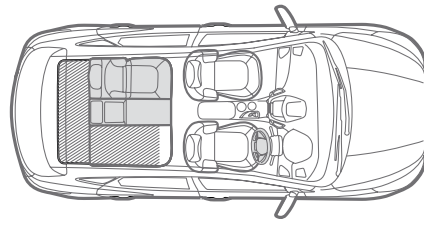

You want things just right. Then again, sometimes you need to change them around. The ix35 lets you configure a multitude of seat arrangements. Recline them - it's a simple matter. When you load up, protection's already on board, thanks to a luggage net that prevents your gear moving around and getting damaged. The luggage screen also provides additional security and privacy.

SEATING FLEXIBILITY.

Whether it's upright, front seats that are semi-flat, or second row seats that are split or fully folded, the choice of seat positions offers exceptional flexibility.

LUGGAGE SPACE.

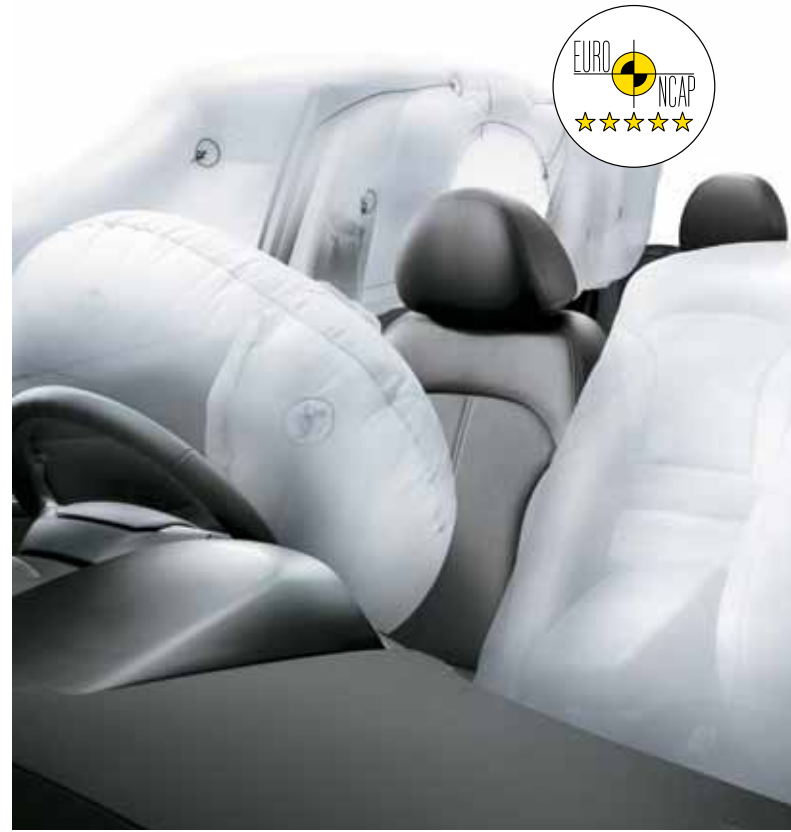

Increased luggage space, courtesy of an increased rear overhang and redesigned rear wheel suspension, allows for 591 litres to a maximum of 1436 litres of luggage space

CARING FOR WHAT'S IMPORTANT

Protection that leaves you reassured. The ix35's safety features are designed for you to travel with confidence. Depowered airbags on the driver's and front passenger's seats deploy at reduced force to prevent possible injury. Side airbags and curtain airbags on the Executive and Elite models, are installed all around to protect occupants from injuries. Active headrests move up and forward during a rear-end collision to minimise head and neck injuries. Impact absorption is further improved through the use of hollow structural side members that gradually increase in diameter from front to back. On the side of the chassis, the centre 'B' pillar has been redesigned as an internal roll bar, to allow for a safer cabin area. At the back, the rear frame member is reinforced and the fuel filler neck base has been moved forward for added safety.

PERSONALISE YOUR HYUNDAI ix35 WITH GENUINE HYUNDAI ACCESSORIES

At Hyundai we understand that everyone is an individual and that your car should reflect this too. That's why we provide an exceptional range of genuine accessories, designed and built to Hyundai's high quality standards to ensure you get the most out of your vehicle. Carefully selected material along with innovative design and practical technology ensure that there's something to cater for your unique tastes and needs. From bicycle racks to transport your other set of wheels, to DVD systems for those long distance trips with the family, whatever your lifestyle needs, we've got you covered.

Bicycle not included

GENUINE ACCESSORIES

A – TOWBAR MOUNTED BIKE CARRIER

The Thule Xpress Bike Carrier has rubber coated frame holders to keep the bikes firmly in place while protecting the frames from scratches and can fold flat for easy storage in the boot of your car.

B – NUDGE BAR

The ix35 Nudge Bar adds a more aggressive look to your ix35 and also helps protect your front bumper from dents and scratches.

C – ROOF MOUNTED BIKE CARRIER

The Thule Pro-Ride roof mounted bike carrier is light and elegant. Bikes can be loaded and off-loaded easily from roof level with the quick release wheel straps.

Bicycle not included

D – BOOT LINER

The ix35 Boot Liner keeps your belongings from rattling around in the boot and potentially being damaged. It also helps protect your boot from mess and spills and is easy to remove for cleaning purposes.

E – DOUBLE TUBE STYLING BARS

The ix35 Double Tube Side Styling Bars were designed to accentuate the lines of the ix35 and adds a unique aesthetic to your vehicle.

F – TOW BAR

You can either choose a fixed or detachable Tow Bar for your vehicle. The detachable version is quick and easy to remove and install and can store away neatly in your boot when not in use.

G – ROOF BOX

The Thule Pacific 200 Roof Box has a storage capacity of 410 Litres and can be opened from both sides for convenient fitting, loading and unloading.

PART OF THE FAMILY

Leaves you lost for words. Leaves you wanting more. Leaves you wanting to get behind the wheel again. The ix35 gets into your head and into your heart. Its headlights flash as you click the smart key, and you linger awhile. A backward glance confirms what you already know: this is where you are, and this is where you want to be.
