# POWER IN THE PALM OF YOUR HAND

Extremely affordable and infinitely customizable, the Intel® NUC comes in a variety of configurations to help you get just what you need

## FLEXIBILITY FOR FUTURE GROWTH

Due to its portable size and ease of installation, the Intel® NUC makes it easy to add devices and scale up rapidly based on changing productivity needs.

## Intel® NUC Products

Intel® NUC with Intel® Core™ i7 Processor and 2.5-Inch Drive Support (NUC517RYH)

Intel® NUC with Intel® Core™ i5 Processor and 2.5-Inch Drive Support (NUC515RYH)

Intel® NUC with Intel® Core™ i3 Processor and 2.5-Inch Drive Support (NUC513RYH)

Intel® NUC Kit with Intel® Pentium® Processor and 2.5-Inch Drive Support (NUC5PPYH)

Intel® NUC Kit with Intel® Celeron® Processor and 2.5-Inch Drive Support (NUC5CPYH)

## PINT-SIZED POWER

The Intel® NUC is a Mini PC with the power of a desktop, packing features for entertainment, gaming, and productivity in a 4x4 form factor.

## CUSTOMIZED COMPUTING

The Intel® NUC kit includes a customizable board and chassis that are ready to accept the memory, hard drive, and operating system of your choice.

Easy Wi-Fi Extension

TECHNICAL  
SUPPORT

The advertisement features a large white TP-LINK range extender on the left and a blue one in the center. To the right, a 3D cutaway of a house shows two smaller white range extenders placed in different rooms, with icons of a laptop, smartphone, and tablet connected to them. The background is a blue sky with binary code (0s and 1s) floating around. The text 'Boost Your Wireless Network' is prominently displayed in blue, with 'WIFI Range Extenders' below it in white. A legend at the bottom identifies three modes: 'Routers' Wireless Range' (blue square), 'Worked as a Wireless Network Adapter' (black square), and 'Worked as a Wireless Network Adapter' (blue square).

### Boost Your Wireless Network

WIFI Range Extenders

- Routers' Wireless Range
- Worked as a Wireless Network Adapter
- Worked as a Wireless Network Adapter

Moving around the house shouldn't be a test of network coverage. TP-LINK Wi-Fi Range Extenders help eliminate 'dead zones' by boosting your wireless networks in your home and office. Ensure that your mobile, media and computer devices are always connected and ready for wireless action!

**TP-LINK**

**EAP series:** Ceiling Mount Access Points

Intuitive Real-Time Monitoring

- Monitor and manage hundreds of EAPs in a single or multiple sites
- Configure and automatically synchronize unified wireless settings to all EAPs in the network
- Upload floor plans to visualize and optimize network resource deployment
- Make network administration more effective and efficient with batch firmware updates

[Learn More >>](#)

The advertisement shows a white ceiling-mounted access point (EAP) at the top right. Below it, a large computer monitor displays a web-based management interface with a floor plan and several access points marked on it. In the foreground, a laptop, a tablet, and a smartphone all display the same management interface, showing a 'Welcome' screen with a 'LOGIN' button. A white TP-LINK EAP device is also shown in the foreground, slightly to the right of the laptop.

## Wi-Fi Experience Redefined, with the Power of Touch

AC1900 Touch Screen Wi-Fi Gigabit Router  
**Touch P5**

### AC1900 Touch Screen Wi-Fi Gigabit Router

Stream Ultra HD video without buffering, play online games without lag, download large files in a flash, and discover countless other ways for the Touch P5 to exceed your wireless expectations. Blazing fast AC Wi-Fi speeds of up to 1900Mbps ensure that everyone on your network can enjoy smooth streaming video and low-latency online gaming.

#### AC1900 Features

One-minute touchscreen set up.  
Get started with a few simple taps.

The responsive touchscreen allows you to set up your Touch P5 in just one minute, using only your fingertips and with no need for a separate PC, smartphone, or tablet. Free yourself from overly complicated network configuration.

Wi-Fi at Your Fingertips

The Touch P5, with its responsive touchscreen, makes this possible today. In addition to adding to the beauty of your router, the integrated touchscreen also dramatically revolutionizes the way you set up and interact with your network.

Wi-Fi where you need it. Up to 10,000\*  
square feet of coverage.

Three dual band antennas with 700mW high-powered amplifiers allow the Touch P5 to provide up to 10,000\* square feet of Wi-Fi coverage. Beamforming Technology further improves long-range stability by delivering highly targeted connections.

As Powerful as it is Beautiful.  
Ideal for seamless streaming and online gaming.

Stream Ultra HD video without buffering, play online games without lag, download large files in a flash, and discover countless other ways for the Touch P5 to exceed your wireless expectations.

## Safeguarding

Worried about intruders targeting your home?

An image captured by video surveillance is automatically sent to your mobile device,  
so you can contact the police within seconds.

An intruder enters to attempt  
a burglary.

The camera detects the motion  
and the alarm host is triggered  
to send out the alarm signal.

The proprietor receives the  
alarm image and calls the  
police instantly.

The police arrive on the scene  
and take control of the situation.

# HIKVISION

Hikvision has torn up the rule book with its new range of NVRs that can be configured in 5 Clicks, with no network knowledge required.

What's more, the cameras offer wide dynamic range performance better than cameras 3 times the price, and all Hikvision product comes with a 3 year warranty.

These products will change your business...

## Enriched Smart Features

### Target Cropping Stream

The third stream of video can be sent to a different source for recording or display in a pre-defined resolution, thus providing more details of a targeted area if needed.

### Object Counting

You can designate an area of interest and let the camera count objects entering or leaving, which include not only humans but also vehicles. It also offers statistical reports.

### Region Enter / Exit

This function detects people, vehicles or other objects that enter or exit from a pre-defined virtual region, triggering an alarm.

### Object Left Behind / Object Removed

This function detects objects left or removed from a pre-defined region, the alarm is triggered.

### ANPR

On-board ANPR analytics allow the ability to detect and recognize a vehicle's license plate and send ANPR info to a Smart NVR or IVMS-5200P for access management. Supports may vary based on local LPR algorithm development and customization process required.
