

**HILL TRAINING SOLUTIONS**

# Operator Trainings & Assessments

[Full and Refresher Trainings]

**Service Brochure 2014**

It's Not Just a Legal Requirement to  
have a Fully Trained and Certified  
Employee.

It's aims at Meeting and Even  
Exceeding Target Production.

# ABOUT US

Hill Training Solutions registered as Cathy Hill Solutions (PTY) Ltd is a fully Registered and Accredited training Provider. Established in 2012, the company has already gained tremendous recognition and presence both locally and Internationally. Hill Training Solutions specializes in Operator Trainings in the trades of Lifting, Construction and Mining Operations.

# WHERE WE ARE

With our head offices in Polokwane, we have agent offices spread across all the Provinces in the country. Should you wish you visit us. Please feel free to come to 53 C Church Street - Polokwane

# WHAT WE DO

We are an Accredited training Provider. We train Operators in Lifting, Construction and Mining Operations.

We also provide refresher training to those already in these trades. Refresher training is not just a legal requirement but also a brain boost and error check mechanism to those already operating these machines. It ensures that an employee is checked against the right principles of operation for his/her particular machine of duty. This is to minimize accidents and incidents caused by boredom as a result of continuous activity in the same field and also to ensure high productivity.
