Notes:

- The SecurePay™ fee is added onto the item sale price and includes VAT.
- **This fee excludes shipping.** The arrangement of shipping or manual handover is the responsibility of the trading parties.
- For a crypto-currency escrow transaction, convert the cryptocurrency amount to Rands to see what fee bracket it falls into. The same fee commission percentages apply to the crypto-currency values. The lowest fee is R30 worth of the applicable cryptocurrency.
- Milestone transactions are based on the base fee above, but incur extra charges per additional milestone. This is currently set at R100 per milestone. A transaction with 3 milestones will therefore follow the fee scheme above plus R200.
