COMPANY PROFILE

DG Con Civils sees its core business as Builders in the Project Management of 'turnkey' construction of Industrial i.e. Factories, Warehouses, Offices and Domestic i.e. Home building and Extensive Renovations. This naturally entails every aspect of foundations, footings, brick structures, concrete structures and steel erections, all internal finishing's, plumbing, electrical and external aesthetics. All such work is to regulated standards requiring civil and engineering involvement.

DG Con Civils assume the roles of Project Managers and Buyers for any project also using the expertise of qualified Supervisors for associated tasks. DG Con Civils take the responsibility for liaison with Technical experts, Building Inspectors and Engineers in conjunction with our Clients and our Supervisors. Our Team-members are competent and experienced in the fields of Construction, Building, Demolition and Project Management. They pay attention to the smallest of details, commit themselves to lasting quality. We have earned a reputation of being extremely responsive to our Client's needs throughout the building process.

During the last 10 years, extensive work has been performed in and around the Vaal Triangle and South Johannesburg in the field of both Domestic and Commercial building and construction. DG Con Civils has established a name for risk-free and quality performance in a field where sub-standard work is often found.

To this end, extensive experience has been gained with the local authorities, professionals and with the National Home Regulatory Body (NHBC) and Master Builders (MBA). DG Con Civils uses qualified Sub-Contractors, adhering to strict guidelines, ensuring the best quality structures and buildings always.

DG Con Civils is a B-BBEE Level 4 Contributor and is currently obtaining our CIDB Level 5 grading.

Our Solution, Your Peace of Mind!

HEALTH & SAFETY

Safety is of a paramount Importance to DG Con Civils. We take steps to avoid hazards and to create a safer and healthier work environment. Our fleet is regularly maintained to ensure safe travel to and from site.

All Health and Safety regulations are adhered to and a copy of the mandatory Safety book is available on request.

COMMERCIAL & INDUSTRIAL PROJECTS

OBJECTIVE

Our objective is to provide a quality, creative and cost-conscious 'Turnkey' building service. DG Con Civils has established a name in Building and Construction for risk-free and quality performance in a field where sub-standard Building work is often found.

Our Solution, Your Peace of Mind!

DG Con Civils handles industrial projects no matter how complicated, keeping our client's budget and time requirements in the forefront. Over the years, we have developed expertise in industrial projects such as Offices, Warehouses, Workshops, Packaging, Staff and Storage Facilities. Being agile and creative in Construction leads to the satisfaction of our client's needs.

CONCRETE SERVICES

We understand the importance of co-ordinating concrete work with other phases of construction, such as Site preparation, Plant, Excavation, Steel, Masonry, Formwork, Block & Lintel and Waterproofing. We also place special emphasis on coordinating schedules with subcontractors to maximize efficiencies that keep the project on or ahead of schedule. Our concrete services run the full spectrum required by virtually any job.

- Civil Works
- Excavation and Compaction
- Foundations and Column Footings
- Bending and Placing Rebar
- Vertical and Horizontal forming systems
- Insitu Slabs
- Lattice Block and Lintel Systems
- Concrete placing and Power Floating

STEEL STRUCTURES

Our Steel structures can be used for various applications such as Garages, Warehouses, Workshops, Metal Sheds, Architectural storage, Hangars and more. DG Con Civils can meet any Commercial, Industrial, Agricultural or Residential application and can be customized for unique solutions as well.

- Engineering Design, Detailing, Drawing and Certification of Steel Structures.
- Fabrication and corrosion protection of structures.
- Delivery and Erection of Structures.

MAKING THE CONSTRUCTION PROCESS SIMPLE

PRECONSTRUCTION

We use methods for estimating and budgeting that are designed to add value, saving our clients time and money. We adopt a transparent approach in our pricing. The extensive work performed in the planning phase pays off in saving during construction and completion

We know that proper management is not good business, its honorable business. We strive to use only Qualified subcontractors. We have developed the reputation for treating subcontractors with integrity and fairness. Such subcontractors are screened and using detailed bidding and procurement processes we save on costs, - a double- plus for our clients.

This high level of performance reflects our sense of personal ownership that has become the hallmark of DG Con Civils.

CONSTRUCTION

We maximize the efficiency and effectiveness of our construction through tested processes and innovation.

Since many of our projects are complex and include sophisticated systems, our Construction Managers coordinate all scheduling activities throughout the preconstruction and construction phases of the project and develop schedule with our project teams.

The Construction Schedule identifies the duration and interrelationships of construction periods. This Schedule is distributed internally to DG Con Civils Foremen and to the Subcontractors so that they can effectively plan and execute their work.

One of our principles at DG Con Civils is to provide the highest quality finished product to our Clients. First and foremost, attaining this goal begins with quality people. As always, we seek staff and subcontractors who have established reputations and proven track records for quality.

PROJECT COMPLETION

Time to hand over the keys and shake hands.

DG Con Civils begins project completion during the pre-construction phase, seeking ways to plan the transition from active projects to occupied building.

We strive to make the completion and occupation of a building as efficient as we can. With good scheduling, and effective quality control, we simplify and expedite completion.

Heading into project warranty, DG Con Civils will ensure that any work proves defective or deficient is corrected. Our history of repeat business is testament to our responsiveness and the long-term support we provide to our clients
