
OSHMAN believes safety doesn't happen by accident and as such safety is a full-time commitment and not a part time practice.

An effective safety training program can reduce the number of injuries and deaths, property damage, legal liability, illnesses, workers' compensation claims, and absenteeism from work.

Safety training classes facilitate and incorporate a safety culture in which employees themselves help promote proper safety procedures while on the job. It is important that new and existing employees be correctly trained and understand the importance of workplace safety.

A 1998 NIOSH study concluded that the role of training in developing and maintaining effective hazard control activities is a proven and successful control measure in limiting the number of accidents in the work place.

OSHMAN introduces a first of its kind training program:

COMPILATION AND MANAGEMENT OF A HEALTH & SAFETY FILE

Presented over 3 days, this unique comprehensive workshop will enable the learner to develop and implement a professional construction health and safety file.

Topics include:

- Contents of a safety file
- Importance of a safety file
- Safety Plan and Risk Assessments
- Compliance Documents as per Legislation
- Safety/Environmental Policies
- Competencies
- Method Statements
- Checklists
- Registers
- Occupational Health and Safety Act Appointments

A comprehensive and professional safety file confirms your company's commitment to occupational safety and your ability to deliver your roles and responsibilities as a contractor and employee.

BONUS

As an added benefit the student will receive a full complement of supplementary sample template documents in electronic format relating to and covering all aspects of the health and safety file allowing the user to easily and quickly compile a site-specific health and safety file.

FULL COURSE LIST

HEALTH AND SAFETY TRAINING

Health and Safety Awareness
 AIDS Awareness
 Anti- Hijacking
 Advance Occupational Health
 & Safety Act training
 Legal Liability for Managers
 Basic Hygiene
 Train The Trainer
 Fire Fighting level1
