I L Sand Logistics specialises in Waste Disposal services that conform to environmentally sound Waste Management practices and offer Demolition Services where we provide a labour team with experienced and trained workers to get the job done in no time at all.

I L Sand Logistics provide Building Material for Construction and Renovation Projects, in and around Cape Town, which we deliver directly to our Clients building site. We pride ourselves offering the same day delivery and collection services since customers mostly require Building Materials as soon as they run out and often they cannot wait 2 to 3 days for delivery. If required, we can arrange delivery after hours.

Our Team has significant experience in solving problems and creating support infrastructures, even in the harshest Environments, specifically where the more technical expertise of Waste Management services form an inevitably part of any Project's deliverables. If in doubt, we shall advise you accordingly, offer solutions and discuss any other apparent problems such as site accessibility, delivery or collection times or any Health and Safety or Environmental concerns you may have.

Building Materials Supply

I L Sand Logistics stock a vast range of sand, top soil, compost and stone for all your building and landscaping needs, through to double washed plaster sand for finishing and river sand which is used for decorative plastering. We only source materials from reputable companies that are licenced mining operations or licenced crushing plants.

We supply various bricks, pavers, kerbs and edging as well as any sub base materials (G5, G6 and other G materials) for roads and crushed stone for the mixing of concrete. Included is gravel, crushed rock, crushed recycled building rubble and any other materials and at very competitive prices. Building Materials come packaged in 40kg bags and when ordering a minimum order of 250 bags in any combination applies.

- | | |
|--|--|
| ➤ SAND - Philippi and Malmesbury (35-40kg) | Bags / 6 m³ / 10 m³ loads |

| ➤ BRICKS & Pavers - All types | Min 4000 |
| ➤ TOP SOIL and COMPOST(40kg) | Bags / 6 m³ / 10 m³ loads |

General and Builders Rubble Removal

I L Sand Logistics follow a set of strict, technical procedures in compliance with current legislation and in particular, the City of Cape Town: Integrated Waste Management By-law, 2009. As an accredited Waste Services Provider we regularly report on volumes and categories of waste that we diverted from landfilling, on behalf of our Clients.

We specialize in on-site Waste Management Services and the removal of any type of solid Waste, including hazardous asbestos removal and safe disposal. Our **6m³** and **10m³ skip bins** are used for the on-site storage of general, mixed domestic and garden waste, and any other types of non-hazardous waste, including recyclables and rubble. We place a skip bin at the customers' premises and once you have filled the bin, you simply call us giving us 24 hours' notice to either remove and/or service the skip bin.

Builders Rubble disposal is no longer free since the City of Cape Town now charge for the disposal of all rubble, even if clean. Always remember that Builders Rubble when contaminated by more than 10%; is regarded as mixed waste and additional fees will be incurred. Do not contaminate with empty cement bag, paint tins, wood, paper, ceiling boards, plastic, brushes or garden waste.

We are committed to providing a Safe and Healthy working environment and operate as per the terms of the National Environmental Management: Waste Act, (No.59 of 2008), known as the "Waste Act". We will provide you with all the necessary legal paper work, making it easy for our customer, to also compile waste reports if required.

Why do Business with Us?

I L Sand Logistics guarantee a quality and less expensive service than our larger competitors guarantee, and still offer the same level of expertise and advice. No doubt, some of the major factors that count positively in this line of business are competence, good relationship management, and timely service delivery.

The business approach toward everyone we encounter is based upon trust, honesty, efficiency and deliberate communication, which is imperative for our Customers to achieve the desired outcome, on time, every time. As no Customer's needs are the same, we are flexible in order to achieve the best desirable outcome every step of the way. Being the best at what we do is what we do! You too can....

- 1) Be a Happy Customer that deals with a Company with good business ethics,
- 2) Contribute to the South African economy through job creation and training,
- 3) Greatly reduce your carbon footprint and broaden your green footprint,
- 4) Preserve the Environment according to Section 24 of our Constitution,
- 5) Proudly support the City's initiative to minimise Waste that is going to landfill,
- 6) Be assured that your Waste is safely disposed at a licensed landfill or facility.

Call us today for your Building Materials, Demolition or Waste Management needs or to schedule an appointment when convenient for you. Thanking you in advance.
