

MONEY BACK GUARANTEE

We are so confident that we back up our claims with a 30 day money back guarantee.

BlueStream provides a 30-day money back guarantee for all hosting services offered.

If for any reason you are not completely satisfied with our services and request cancellation within 30 days of signing up, you will be given a full refund. This offer has exclusions. Please see our Refund Policy in our Terms Of Services agreement. Any other violation of our ToS will also unfortunately deprive you of a refund.

We unfortunately do not however, offer an unconditional money back guarantee. The condition is a demonstrated failure on our part to provide the service you signed up for. This is to prevent spammers from entering our system and requesting refunds after they have done damage.

Now there's no risk to find out for yourself!!

Please Note: Domain registrations. Domain Transfer Fees and VPS Servers are non-refundable.
