

> aXR7+

- Excellent printing quality and sensitivity
- Excellent resistance to smudge and scratch
- Good resistance to high temperature
- Receptor multi-compatibility

aXR®7+ is the standard resin ribbon of the inkanto range. Its high versatility (it also prints on coated papers), its performances (sharpness, printing speed) and its ability to widen the usual application fields of resin ribbons have resulted in making aXR®7+ the worldwide reference on this family of products.

product physico-chemical features

product structure	
PET film	Thickness: 4,5 µm
Ink	Resin
ribbon features	
Backcoating	Silicon based
Coefficient of Friction	Kd < 0.2
Melting point	80°C/176°F
Ribbon thickness	< 9 µm
The ribbon is anti static build-up treated	

storage

storage conditions

12 months, 5-35°C (40-95°F)

20-80 % Humidity Rate

waste management

inkanto rolls and their packaging allow an optimised waste management. For more information please contact ARMOR.

The inkanto benefits

› **Warranty**
This product is guaranteed for life against any manufacturing defect in normal conditions of use and storage.

› **Quality commitment**
Easy to use with guaranteed product performance: the certificate of conformity for your product can be accessed via the flashcode on the box.

› **Easy to identify products:**
The inkanto rolls families are identified by color codes. The roll labels highlight the important information about the product.

› **Your product is delivered with a cleaning wipe**
To clean the print head and maintain the maximum performance of your printer.

› **Packing**
Consistent packaging units depending on the roll dimensions.

A certified and approved production site

Quality, health & safety and environmental systems:
ISO 9001
OHSAS 18001
ISO 14001
ISO 50001 (France only)

Responsible Care
The charter of the International Council of Chemical Associations for improvements in health & safety and the environment.

Global Compact
UN initiative inviting companies to apply fundamental ethical and environmental values.
