## VIRTUAL CLASSROOM TRAINING

### BEAT COVID 19

#### LIMIT ALL CONTACT THROUGH VIRTUAL CLASSROOM TRAINING (VCT)

We offer Virtual Classroom Training (VCT) in a virtual or simulated environment, or when our facilitators and learners are in separate locations. Our Virtual classroom environment is designed to simulate the traditional classroom learning experience. We refer to it as virtual classroom training (VCT).

We offer VCT training in a practical and inviting solution for all training interventions to limit contact between individuals as far as possible.

With the technology at hand we widely disperse learners efficiently and cost-effectively by using our technology to limit physical contact as far as possible and make it more cost effective and safer for training.

## FACTORS OF OUR SUCCESS WITH VCT TRAINING

Our solution is principally driven by the need to effectively train a growing and more dispersed population in a safe way with controllable cost. We enable organizations to provide valuable learning experiences for employees, customers and channel partners while avoiding travel and accommodation costs and valuable time spent away from the job and to limit all contact as far as possible.

We provide an engaging experience in which participants can connect with the content and interact with both the instructor and other learners.

Successful implementations, visible through high retention rates and satisfied learners, demonstrate that VCT delivery can be both effective and efficient.

## VIRTUAL CLASSROOM TRAINING

## THE BASIS OF OUR SUCCESS IS THE SEAMLESS INTERPLAY OF THREE IMPORTANT FACTORS

## TECHNOLOGY, CONTENT AND DELIVERY

**Our Technology** is based on comprehensive and scalable collaboration software that features functionality, availability and ease of use. A full range of engagement tools typically includes live Facilitation conversation, chat, video conferencing polls and quizzes, all controlled and monitored by facilitators.

**Our Content** is designed for the VCT programmes/ courses that we offer. It requires a different approach than classroom or online asynchronous programmes. The instructional design provides the facilitators and learners with mechanisms to communicate frequently and keep the content engaging and collaborative. Learning content are developed with maximum student engagement in mind. To capture learners' interest and promote retention, our VCT is designed around a comprehensive learning strategy. Visuals and interaction are paramount in our VCT to promote engagement and increasing training effectiveness.

**Delivery:** Our Facilitators, are all trained facilitators and subject matter experts. They are also skilled communicators in order to deliver compelling VCT. The principal limitations to successful VCT are the failure of facilitators to interact with students and manage their classrooms effectively. Our facilitators are trained to facilitate VCT in the most engaging way possible with all applicable tools.

## BENEFITS OF VCT

**Reduced cost.** Due to the nature of VCT, travel and accommodation costs can be reduced or eliminated completely.

**Convenience.** VCT learners can choose when and where they would like to participate in training courses – whether they are at home, in the office, or on their mobile devices.

**Modular design.** To appeal to busy students and professionals, our VCT programmes offer training content in short, incremental modules, which can be completed independently or in combination with other courses or curricula.

**Increased capacity and scalability.** We can accommodate large numbers of students without increasing the amount of materials or space needed in typical classroom settings.

**Increased diversity.** Because of the reach that VCT provides, students and instructors from a variety of cultures and geographic backgrounds can participate simultaneously.

## VCT PROCESS

- Book you training and do the payment
- Receive username and password from Ethikos Academy
- Access website on the day of your training and login with your details
- Attend the training in the luxury of your own home or your workplace, using your own smart technology or computer
- Upon completion receive your electronic certificate of successful completion

## SCHEDULE OF VCT COURSES

## ISO 9001:2015 Awareness Training Course

Date: 20 April 2020  
Duration: 1 day  
Price: R700 excl VAT

## ISO 45001:2018 Awareness Training Course

Date: 21 April 2020  
Duration: 1 day  
Price: R700 excl VAT

## FSSC 22000 V5 Awareness Training Course

Date: 22 April 2020  
Duration: 1 day  
Price: R700 excl VAT

## ISO 45001:2018 Implementation / Transition Training Course

Date: 28-29 April 2020  
Duration: 2 days  
Price: R1,400 excl VAT

## Legal Liability for Executives Training Course

Date: 30 April 2020  
Duration: ½ day (4 hours)  
Price: R400 excl VAT

## Safe Hygiene Practices Training Course

Date: 4 May 2020  
Duration: ½ day (4 hours)  
Price: R400 excl VAT

## Food Safety Regulations R638

Date: 24 April 2020  
Duration: ½ day (4 hours)  
Price: R400 excl VAT

Training dates are subject to change, depending on the number of confirmed delegates per course.

Should the number of delegates exceed 30 per course, a second date will be scheduled to accommodate the requests.

If your organization requires VCT to be offered to internal groups of 15 delegates or more, a group discount will be offered.
