

VER-BOLT

SPECIALIZING IN ALL INDUSTRIAL FASTENERS

COMPANY PROFILE

Established in 1980, Ver-Bolt has grown to be one of the largest stockists of fasteners in Africa. Growth has been achieved by focusing on customer requirements, giving customers what they want the first time, everytime, quality and on-time deliveries at competitive prices. Significant stock levels of certified and fully traceable raw material, semi-finished and finished goods helps reduce lead times. If we do not have the goods in stock, we can make them for you in our extensive machine shop.

Five Cornerstones Foundation

- Quality
- Technical Support
- Ethical and Social Responsibility
- Service
- Commitment

The company seeks to achieve continued growth by the creation of long term relationships with our customers.

We will support our customers by committing our selves to provide:

- A consistently good quality product that meets or surpasses the customer requirements.
- A friendly and efficient response to our customer needs.
- Expertise and technical support for all our products we supply.
- Intelligent Management systems and Modern Technology to meet the most demanding challenges.
- Conducting all our business activities in an ethical, honest and professional manner and accept our social responsibilities in all aspects of our business.

The Management Team

Under the leadership of our CEO Mr T Nienaber. We have a strong leadership focus on the core principles that set the foundation of our company. Mr T Nienaber has implemented a strong successive plan to ensure continuity in this family owned business.

Black women ownership	31%
Balck shareholding	51%
3. Lenhuizen Investments

Oil & Gas Fasteners

We supply to both onshore and offshore environments where performance, reliability and service are all paramount considerations. Many of our products are used in both topside and subsea applications, where corrosion resistance is a critical factor.

Typical applications of our products include:

- Oil Platforms
- Pumps
- Value Christmas Tree Stacks
- Oil Rigs
- Fabrications
- Submersibles
- Valves
- Risers
- Downhole Drilling Equipment

Standard & Construction Fasteners

With over 100 years of employee experience in fasteners, we have placed all of our emphasis on maintaining reliability for service, quality and value at competitive prices of course. We maintain an immense inventory of 24 000 line items, over 195 million fasteners in stock, and if you can't find what you need in our stock range, we can manufacture it to your particular specifications and requirements, in any finish or material.

Our products include:

- Bolts
- Cap Screws
- Washers
- Pins
- Screws
- Nuts
- Rivets
- Electronic

Power Generation Fasteners

Ver-Bolt have been involved in the Power Generation sector for over 20 years and have expert knowledge of the industry's products and high temperature materials. We are experienced in understanding the unique needs of each application and supplying to detailed customer specification.

The Power Generation sector includes:

- Gas Turbines
- Power Stations
- Nuclear Reactors
- High Temperature Valves
- Condensers
- Heat Exchangers
- Steam Turbines
- Rotors
- High Pressure Pumps
- Heat Recovery Boilers
- Generators

Mining Fasteners

Ver-Bolt distributes specially manufactured bolts, for both new construction and maintenance within the mining industry. We have supplied anchor bolts for new construction, bolts for conveyor systems, and holding down bolts for metal buildings.
