WHO ARE WE?

Graffitiville is owned and run by Tanya Boshoff and Sharlene Labuschagne. It is a passion project founded by two friends who love colour, art, beautiful things, creativity as well as the distinctiveness embodied in graffiti art. They believe in the words of Marc Anthony, that

***“IF YOU DO WHAT YOU LOVE,  
YOU WILL NEVER WORK A DAY IN YOUR LIFE”.***

Graffitiville’s aim is to create a platform where graffiti art is celebrated, and new and existing artists get to showcase their work locally and internationally. This platform will also be a gateway to the artists’ own social media platform giving them more exposure.

Graffitiville also intends to make graffiti present in our everyday lives by taking it off the walls and making it a part of personal spaces and style - giving graffiti art fanatics the opportunity to own a unique (#1of1) art piece from one of the top graffiti artist in South Africa.
