ABOUT US

Ushaka Protection is a Professional Security Company providing all aspects of Guarding Services to South African businesses.

The escalating and violent crimes in this country has resulted in tremendous pressures on the business sector to firm up on security. We have put together a team of passionate and experienced security experts to provide a professional Security Service, offering a disciplined and dedicated group of quality vetted employees and management; all of whom are expertly trained.

Our Company policy is to offer our clients the peace of mind and reassurance of a complete and dedicated Security Service. We take pride in providing our clients with a "tailor made" one on one service.

QUALITY VETTED GUARDS

Our process of sourcing, selecting and providing you with committed guards is executed using a highly compliant methodology by our HR Manager who has more than 23 years in the staffing industry, managing the full employment value chain from recruitment to deployment, to on-site management, HR and IR services and employee engagement interventions.

By understanding your business and your requirements, we match the RIGHT candidate to YOU providing you with fully vetted, quality staff; aligned to your culture and requirements.

Security is not taken lightly.

We believe this is at the core of your business and should be delivered with quality, efficiency and effectiveness.

A PROFESSIONAL SECURITY COMPANY

LOSS CONTROL

Warehouse, Despatch and Receiving "Checkers" and Controllers

We specialise in the provision of highly trained personnel for despatch, receiving and general warehouse functions. We train our personnel in the clients particular procedures, and contract out to the clients:- Trustworthy, reliable and efficient Guards.

Often our clients replace their entire "Cage Checkers" and controllers to us, as our reputation for cutting losses dramatically in these vital areas is excellent.

We combine this with an efficient security force at the main gates to enable us to hit losses hard where we are needed. Clients often utilise security personnel at the main gate to effectively reduce losses through our Vehicle Exit Procedures.

PEACE OF MIND

Our Guarding Division is a team of highly motivated, professionally trained guards. All our guards are PSIRA registered and are South African citizens.

We also obtain full police clearance and undertake a criminal record screening on the guards we employ. Our Operations Manager controls the team of guards and is responsible for the supervision of our various restricted access premises.

Inspections are held before each shift to ensure that all guards are fit for services. Strict control measures are in place and site visits by Operations Manager occur regularly during a shift. Guards are in constant radio contact with out control room should incidents arise and armed reaction in the area can assist. Guards are all kitted in our combat uniforms and are extremely visible both day and night. They are also equipped with 2-way radios (If applicable), a flashlight, baton, handcuffs as well as panic buttons in certain instances.

PROFESSIONAL SUMMARY

We provide motivated, quality, upmarket personnel and services that our clients can rely on and be proud of. Our main feature is that, we are not in the market of providing cheap, poorly equipped, badly trained, or sloppy unmotivated personnel or services but to ensure that our client receives, not a good service, but a dynamic, and excellent service!

Our aim is to build a strong, long lasting relationship with our clients.
