The Elderly, Chronically Ill, Disabled, Baby/Child care and For All Individuals That Need Care.

Vonlea Care International villages spread across Southern Africa with their own unique features and leisure and lifestyle options to choose from. A few of our villages are co-located with specialised care facilities which can provide assistance to residents who may need extra support. Services vary across our villages and ranges from cleaning, gardening, laundry and meals, these are aimed at providing you convenience in your retirement years and provide you with time to enjoy doing what you love.

We offer a variety of accommodation options to suit the lifestyle of our residents and each village has its own pricing structure which our Head Office sales team will be happy to talk you through. Residents at our retirement villages live active and independent lives in cottages, flats or apartments and it's important when considering the available options that the resident is able to care and cater for themselves also.

Whatever the care, health, support and medical requirement we meet client needs with a custom tailored approach exceeding satisfaction in the comfort of your own home and within the community.

Vonlea Care Centre International was founded to work alongside families as they navigate care for those they love, alleviating the complexities and frustrations associated with getting care right, the first time round.

Vonlea Care Centre International has, in this way, firmly established itself as one of the top providers of exclusive and privately funded care.

As a family, everyone at Vonlea Care knows that getting care right for loved ones ultimately starts with creating and nurturing an exemplary culture within the business. The desire is that every member of the Vonlea Care team is able to play to their strengths every day, continually learning, growing and bettering themselves within an organisation where they truly belong.
