

Services Offered for Skilled Workers Finding A Sponsor

Vonlea Care Centre International has obtained sponsorships for hundreds of their clients. If you have a strong academic & professional background, we can get you a sponsorship in your relevant field. We have solid connections with the HR Departments of over a thousand companies from small businesses to large multinationals via direct and third-party connections. In the past 1 year, we have been able to secure sponsorships for more than 90% of our clients within the 30- 60 days of the consultation.

If your background is not strong enough without enough professional experience and you still want to stay in the UK then as a last resort, we can always get a guaranteed sponsorship as a care worker. We have 100+ partners providing senior care services.

We do not charge an upfront sponsorship fee, but the standard consultation fees will apply if you want to proceed with an application.

Visa Applications

If you already have a sponsor ready with a valid Certificate of Sponsorship, our experienced team can help both employers and employees make sure their Tier 2 visa applications go as smoothly as possible.

Applying for ILR & Citizenship

If you have stayed in the UK for over 5 years, we can help you apply for ILR & Citizenship.
