

Glutathione

This drip improves skin tone by lightening pigmentation, reduces the appearance of ageing all while detoxing and rehydrating your body from within.

Skin Rejuvenation and Brightening

This drip improves skin tone by lightening pigmentation, reduces the appearance of ageing all while detoxing and rehydrating your body from within.

NAD IV Therapy

During the aging process our NAD levels also decrease resulting in unwanted pigmentations such as scars, wrinkles, and freckles. Relieve muscle cramping and burning brought on after intense exercise.

ALA IV Therapy

It is known to facilitate the conversion of glucose into energy and assists in aerobic metabolism in the cellular mitochondria. Alpha-Lipoic Acid (ALA) is a potent antioxidant and neutralizes harmful free radicals by scavenging them before they can react and cause damage to cellular structures.

MIC Injections

MIC injection has been shown to produce an additional weight loss of 1-2 pounds weekly when administered once or twice in conjunction with an adequate diet. The nutrients within our special shot play an important role in the usage of fat.

IV Therapy

Give your immune system and energy levels an immediate boost and receive the full benefits of MediHaven's high quality concentrated IV micronutrient infusions.

Immunity Booster

This special infusion strengthens your body's defense mechanism by combining all the essential vitamins, minerals, antioxidants, and electrolytes your body needs.

Myers' Cocktail

Combination of Glutathione, Myers' Cocktail and Vitamin C, this drip has it all.

Ultimate Fuel

This special formulation of micronutrients will boost your energy levels, improves your mood, strengthens your immune system, optimise performance all while detoxifying and rehydrating your body from within.

Banana Bag - Hangover Help

Alcohol consumption affects your blood, brain and other key organs influencing certain physiological processes leading to symptoms of a hangover. This 1 Litre drip has added electrolyte to balance the electrolyte profile and rehydrate the body.

Selenium & Zinc Minerals

Zinc supports the body to make proteins, heal wounds, while optimising performance and recovery. It also naturally boosts testosterone levels and maintains the body's immune function.
