WHO WE ARE

A South African manufacturer built around practical solutions

Atlas Civils manufactures and converts shipping containers, modular buildings and steel structures for business, construction, mining, residential and community applications.

20+ YEARS OF EXPERIENCE	500+ PROJECTS COMPLETED
50+ TEAM MEMBERS	SA NATIONWIDE DELIVERY

OUR FOCUS

Flexible infrastructure that arrives ready to work.

- Professionally refurbished and custom-built shipping container solutions.
- Site offices, business units, homes, storage, garages and workshops.
- Buildable and prefab modular systems for fast, flexible deployment.
- Plug-and-play electrical options and practical ready-to-use layouts.
- Custom colours, finishes, windows, doors and internal configurations.
- Solutions designed for South African conditions and nationwide logistics.

A practical alternative to conventional building

Portable, scalable and customisable infrastructure can help businesses and projects establish usable space faster, with greater flexibility as requirements change.

**Site Office - Exterior & Interior**

A practical finished unit manufactured for day-to-day operations.

**Multi-Room Site Office**

A larger configuration demonstrating clean internal finishes and usable workspace.

PRODUCT PORTFOLIO

Solutions for work, living, trade and infrastructure

A broad range of container and modular products allows Atlas Civils to support projects from a single unit to multi-purpose operational sites.

01 Office Containers 6 m and 12 m site offices for construction, mining, farms, industry and remote operations.	02 Business Containers Tuckshops, takeaways, salons, offices, retail units and customised entrepreneur spaces.
03 Housing & Accommodation Compact accommodation, staff housing, garden units and container home solutions.	04 Storage Containers Professionally refurbished storage units with repair, rust treatment and repainting.
05 Garages & Workshops Secure container garages and workspaces for mechanical, welding and maintenance use.	06 Ablution & Utility Units Practical sanitary, service and support units for sites and community applications.
07 Buildable & Prefab Units Modular systems designed for fast installation, scalability and restricted-access sites.	08 Steel Structures Steel-frame solutions for warehouses, workshops, storage, industrial and agricultural use.

SPECIALISED BUSINESS RANGE

KickStart business containers

Purpose-built units can support trades and small businesses including mechanical, electrical, welding, carpentry, plumbing, internet cafés, kitchens, coffee shops, offices and printing/design operations.

**Business Container - Dual Serving Hatches**

Purpose-built retail space with practical serving points and internal work surfaces.

**Branded Business Container**

A finished container business unit configured for customer-facing trade.

CAPABILITY

Built for real-world operating conditions

Atlas Civils combines steel-based construction with practical fit-outs to create units that can be deployed, relocated and adapted as projects evolve.

QUALITY & FUNCTIONALITY

- Professionally refurbished steel container shells
- Rust treatment, repair and surface preparation
- 10-year paint guarantee on qualifying products
- Customisable layouts, finishes and colours
- Modern windows, doors and security options

WHY STEEL & MODULAR?

FAST

Reduced on-site building time.

FLEXIBLE

Relocatable and adaptable.

SCALABLE

Expand as needs grow.

PRACTICAL

Ready-to-use configurations.

Shipping Container Home

Modern accommodation solutions designed around practical space and durable construction.

Rapid Build Prefab

A larger modular building solution for residential, institutional or project use.

FROM ENQUIRY TO DELIVERY

A clear project path from concept to site

Our team works with customers to understand the application, recommend the right format and progress the project through manufacture and delivery.

01 Tell us what you need

Share the intended use, size, delivery location and timeline.

02 Requirements reviewed

The team assesses the application and recommends suitable options.

03 Quote & production

Once approved, the project is scheduled for manufacture or refurbishment.

04 Delivery & placement

Nationwide delivery and offloading support can be arranged for the site.

COMMUNITY IMPACT

Donsa Phambili Drive

200

CUSTOM UNITS
OVER 5 YEARS

Pull Ahead. Build Opportunity.

Atlas Civils aims to donate 200 custom container units over five years to support individuals and communities across South Africa. Selection rounds take place every six months, with 6 m and 12 m units available for practical uses such as accommodation, business and community facilities.
