ABOUT US

OUR STORY

Operating in the Cape Town vicinity with over 10 years of experience, CM Tech offers superior quality materials and expert service which has played a major part in our success. Specialising in the installation of PVC Ceilings and Vibracrete Fencing, we can firmly say that not only are our rates competitive, but that our personal guidance ensures each client is given reliable service and a fast turnaround time.

We also offer additional home and commercial property improvement services such as Electric Fencing, Automated Gates, Carports and Burglar Bar installations and servicing. Contact us now for a quotation, and we'll provide you with prompt feedback!

WHAT WE DO

OUR SERVICES

We are a ceiling and fencing installation company in Cape Town. Our aim is to provide a quality service with top class materials.

VIBRACRETE FENCING

Installation of new vibracrete fences. Extensions of existing vibracrete fencing. Repair and maintenance of vibracrete fencing.

PVC CEILINGS

Trust our expert and professional service for installation of new PVC Ceilings with many different types of designs and finishes available.

AUTOMATED GATES

We offer professional automation of various gates, including custom designed gates manufactured from only quality materials.

CARPORTS

Increase the value of your property by adding a beautifully constructed carport with only the best materials.

ELECTRIC FENCING

Improve the all round security of your home or property and get one of our experts to install electric fencing for added assurance.

BURGLAR BARS

Add an additional layer of security to your property with our burglar bar installation in various types, as well as other security barriers.
