

# THE CARPET GUYS

PROFESSIONAL FABRIC CLEANERS

## WELCOME TO THE CARPET GUYS

**Expert Carpet Cleaning in Johannesburg: Reliable & Professional.** Whether you're dealing with pet stains, allergen concerns, or simply want to refresh your home, our professional team delivers results that last. Our service is built on unparalleled expertise and a higher standard of cleaning.

*"Unlike surface-level or inconsistent cleaning, we use a unique 7-step standardised process meticulously developed to deliver the safest, most thorough results. This ensures deep penetration and extraction, leaving fabrics comprehensively treated against stains, allergens, and microbes for much longer."*

## The Carpet Guys Difference

We set ourselves apart by investing heavily in our staff and processes. Here is why we are the preferred choice for fabric care in Johannesburg:

- **Academy-Certified Technicians:** Every team member is highly skilled and certified through our dedicated Carpet Guys Academy and the Woolsafe Organisation.
- **100% Pet & Infant Friendly:** We eliminate the risk of harsh chemicals. Our in-house solutions are formulated to be completely safe, ensuring the safest deep clean in the industry.

- **No Sticky Residue:** Standard sticky soap or detergent residue acts like a dirt magnet. Our meticulous method includes thorough deep extraction and rinsing to ensure zero cleaning solutions are left behind.
- **Transparent & Honest:** Our quotes encompass our full comprehensive process with no bait-and-switch tactics or hidden costs.

## OUR UNIQUE 7-STEP PROCESS

We apply a low-moisture treatment designed to penetrate fibres, lift contaminants, and successfully eliminate the frustrating problem of residue-based re-soiling.

### 01 Pre-Inspection

Our technicians will always properly communicate what a cleaning can and cannot fix before starting the service.

### 02 Extraction

Removal of dry soil, dust, and abrasive debris from the surface and base of the fibers.

### 03 Stain & Treatment Prep

Targeted application on stubborn spots, pet stains, and high-traffic areas.

### 04 Low-Moisture Deep Clean Application

Using our specialized, 100% safe solutions to agitate and break down embedded dirt and oils.

### 05 High-Powered Water Extraction

Thorough rinsing to ensure zero cleaning solutions are left behind, eliminating "crispy" feelings.

### 06 Drying

Accelerated drying process. Our goal is for most items to be nearly dry by the time we leave your home.

### 07 Grooming

Restoring the natural pile and texture of your fabrics for a visually stunning finish.

# OUR CORE SERVICES

We provide high-end, specialized, tailored care for all the fabric surfaces in your home. From synthetic rugs to delicate baby equipment, our solutions are engineered for maximum hygiene.

## Carpet Cleaning

We deliver a restorative treatment using our unique low moisture process. Rapid, low-power methods fail to remove deep-seated, abrasive dry soil, oil, and deeply embedded allergens (like dust mites and dander) that collect at the base of the fibres. We penetrate deep beneath the surface for true sanitation.

## Upholstery Care

Your sofas, chairs, and fabric furnishings absorb dust, stains, pet dander, and odors. Our advanced hygienic cleaning treats the fabric surface and padding, using pet-safe solutions to neutralise deep-set odours while protecting colour and texture.

## Bedroom Textiles

Your bedroom should be a sanctuary, not a reservoir for allergens. We deep clean mattresses, headboards, and ottomans, neutralizing dust mites, skin cells, biological residue, and embedded odours deep within the core.

## Specialized Rug Cleaning

High-end, tailored care for loose rugs, designed to remove abrasive dry soil and restore vibrancy without risking foundation damage or dye bleed. Safe and aggressive targeting of deep-seated contaminants for synthetic and delicate rugs.

## Fabric Blinds

Window coverings act as air filters, accumulating dust and pollens. We offer gentle yet effective restoration of fabric blinds, significantly reducing common airborne allergens and preserving delicate structures.

## Baby & Nursery Equipment

Hygiene is non-negotiable for baby gear. Complete sanitisation of prams, car seats, cots, and soft toys. We eliminate milk spills, food residue, bodily fluids, and deeply embedded germs without harsh chemicals.

## WHAT OUR CLIENTS SAY

*"Professional company, excellent website and communication and fantastic results. Have dealt with other carpet cleaners in the past and these guys are in another league!"*

**- Antoinette M.**

*"I've finally found a company that takes pride in their work and I can trust in my home. Very professional work. These guys communicate well and clearly."*

**- Happy Customer**

*"Very impressed! I booked two ottomans to be cleaned with The Carpet Guys and have to say wow."*

**- Sonia O.**
